Thank You, Charles Shain

The consternation caused by the unexpected announcement of President Shain's resignation has been overwhelming. For with his patience in times of turmoil, his natural warmth, his ever-sympathetic response when counseling was needed, his encouragement and support—this President has become so vital a part of the campus that today "Charles Shain" is synonymous with "Connecticut College." In this way it is as though he had always been with us, but to those alumnae who witnessed his first appearance in Palmer Auditorium it seems as though Charles Shain came to us only yesterday.

It was late spring in 1962, and students suspected that the reason for calling the general assembly was to announce or introduce the next president. During classes that day no scholastic subject, no academic discussion could compete with the whispered suppositions floating about. When the last period ended, hundreds of young women hurried toward Palmer, eager to learn who would lead the college in the years ahead.

In those days Women's Lib was not even a gleam in Betty Friedan's eye. However, this student body had been indoctrinated under a woman president—an outstanding and very popular one at that; they were a hundred percent on the distaff side, and they were geared to a feminine environment. Little wonder, then, that the auditorium reverberated with surprise (and uncoined delight) when an attractive male with a heavenly smile emerged from the wings. As he walked to center stage 2,232 eyes watched every move, and 2,232 ears expected to hear a version of "It gives me great pleasure to..." Instead, Mr. Shain leaned against the lectern, shifted his weight, paused, and then proceeded to captivate his audience with, "This is what is known as 'Show and tell.'" Ever since then we have gladly looked and listened to Charles Shain.

At the time of his appointment, President Shain said:

The challenge before all American educators today is exciting. The rate of social change in our world, the sharp impact of technical changes, raise many questions of relevance that traditional modes of education must face honestly. I hope that I can help to keep Connecticut College as alive as it always has been to the contributions that liberal education for women must make to America's future.

You have, Charles Shain, and grateful alumnae and alumni thank you.

Watergate and the Importance of Religion

David J. Robb
Assistant professor of religion

As I begin my work as chaplain at Connecticut College this year, I do so with the awareness that as a nation we are experiencing as profound a moral crisis as any in our history. Given the pretentiousness of a phrase like "moral crisis" it is not easy to document the reality to which it points, except to bear witness to the pervasive feelings of doubt, and outrage, and confusion, and helplessness, and sheer astonishment that seem to be the tone of nearly every conversation centering on our national life. We Americans are used to thinking of ourselves as essentially good people. Now we are undergoing the painful process of watching one illusion after another stripped away, until we wonder rightly who we are and what is real.

The Watergate hearings delineated the slow transformation of the structures of at least one major political party into the potent machinery of a moral crusade, with little regard for even the minimal ethical norms of our political processes. Even the former Attorney General, the nation's chief law-enforcer, admitted that the return of the Nixon Administration to power was of such overwhelming importance in his mind that it superseded all considerations of civil or moral law.

Participation by United States military forces in the war in Indo-China mercifully came to an end this past summer, but not without further destructive revelations about how we conducted ourselves there. We were told of an elaborate system of false reports to hide our deliberate bombing of the neutral Cambodia. We also learned that American troops regularly attacked civilian centers and hospitals, and as one soldier put it casually, "The Geneva Conventions never applied to this war."

Having admitted filing false income tax reports and under the pressure of strong evidence that he had betrayed his public trust by accepting bribes, Vice President Agnew, one of the nation's most vociferous critics of public morality, resigned his office. In his farewell address to the American people, his assurance both of his innocence and that "God still reigns" is certainly irony of the highest order. For the very difficulties of this Administration, including those of Mr. Agnew, are the surest evidence of all that the righteousness of God sleeps not forever.

The full impact of these and other revelations is yet to be fully comprehended. But I suspect what I have called "the moral crisis" will eventually have more profound impact upon our common life than even the Constitutional crises that have become so commonplace. For howsoever we may differ in our interpretation of the Constitution, it still functions as a symbol of a commonly held faith and provides the apparatus for adjudicating our differences of opinion. There is however in American life no similar unifying symbol of common faith to support the claims of moral commitment. The greatest danger is that the deepening sense of moral relativity will produce a climate of cynicism. And cynicism is in-

capable of supporting any form of community, the precondition for moral imagination. Cynicism, as Paul Tillich once wrote against the background of the German experience of Nationalist Socialism, leaves only a dangerous vacuum in its wake: "Its nemesis is the empty space it produces, the complete vacuum into which new absolutisms pour."¹

What, if anything, is the role of religion and religious belief in our current situation? There is over the doorway to Harkness Chapel the following inscription:

Built through the generous gift of
Mary Stillman Harkness to express her
belief in the importance of religion
to college students.

I would be less than honest if I did not affirm that I, like Mrs. Harkness, believe religion to be exceedingly important to college students, and would not be at Connecticut College with any integrity unless I did. In fact, if I may be so bold, I even believe religion is important to and for college professors, college administrators, college alumni, and even those who have never attended and will never attend college.

But I would be less than candid if I did not also admit being troubled by the easy assumption that religion is not only important but that it is *inherently good* not only for individuals but for the nation. Quite the contrary. Though it may seem strange for a "religious professional" to suggest, it is likely that religion may even be part of the source of our present dilemma. We cannot escape the apparent paradox that, if this current Administration is guilty of the most shoddy of ethical behavior, it is also the most publicly religious of any Administration in memory.

Americans, from the time of our first settlement and persisting even into our own very secular time, have maintained a naive belief in an intimate connection between religion and morality. We assume if people are deeply religious they cannot help but be good. Politicians, at least, have often counted upon the willingness of the people to make this assumption.

But there really is no substantial evidence of a necessary connection between religion and morality. Many deeply religious persons have also been good, but religion, as often as not, has been the justification for moral evil rather than for righteousness, some of it monstrous in scope like the Crusades of the Middle Ages, the Thirty Years' War of the seventeenth century, or the holocaust of our own century. No religion or religious belief is neutral in the hands of men and communities. It either supports the liberation of persons and increases sensitivity to our common humanity, or it gets used to enslave and dehumanize.

At the same time, neither am I impressed with rationalist efforts to eschew religion altogether. For people are

¹ Paul Tillich, *Systematic Theology* (Chicago, 1951), I, 88.

David J. Robb, the college's new chaplain and assistant professor of religion, attended Yale University and Union Theological Seminary. After completing his studies, Reverend Robb was ordained a minister in the United Church of Christ and became associate pastor of the First Congregational Church in Washington, D.C. Later he was released from his church, so that he could work with the Council of Churches in Washington. In the summer of 1968 he became Director of Suburban Ministries and, at the same time, taught in the theological department at Georgetown University—the first Protestant to teach religion at this Jesuit university. His wife, Nancy, who also graduated from Union Theological Seminary, has worked with the Pastoral Counseling Center and has taught part-time at Theological College at Catholic University. The Robbs, with their two sons, Matthew and Nathan, came to New London in July.

more subtly religious than we know and, in the absence of formal symbols of religious insight, tend to elevate and enshrine new ones that are no less dangerous. So we have a new dilemma. Religion, as Mrs. Harkness and I agree, is extremely important; but it is also dangerous and is no automatic guarantor of moral integrity. In what does its importance then consist?

The importance of religion, in my judgment, lies in its capacity to provide individuals and communities with an identity different from—and indeed in tension with—the identity provided by the prevailing culture. That is, religion is important precisely as it helps people to maintain some critical distance from the dominant attitudes, assumptions, and symbols of their culture. For when those themes and symbols go unchecked, their power over us tends towards totalitarian control.

On the other hand religion loses its importance, in fact may even become demonic, insofar as it becomes indistinguishable from the prevailing culture. Every culture seeks to maintain itself by co-opting the symbols of authentic religious tradition and using them to help sanctify its own assumptions. Once this happens, religious faith becomes one with faith in the culture, and religious symbols lose their power to provide distance. It is because this is such a pervasive process that it is naive to believe in a necessary connection between religion and morality. For, unless religious insight helps to provide this tension between the self and its cultural identity, there is no room left for judgment by which we make ethical decisions.

If Watergate has revealed anything of importance to us, it is not that we lack conceptions of morality, or even "moral fiber." Rather, it has revealed how little distance most of us maintain between ourselves and the assumptions of the "American way of life." That is why basically decent motives like personal loyalty and national security could become the plausible justification for so many implausible and insane activities.

If, as I believe, religion is indeed important for us as individuals and as a nation, then its importance lies in its capacity to restore the tension between ourselves and the dominant themes and symbols of the prevailing culture. For it is only in the midst of this tension that ethical decisions can be made. Decisions made in the midst of this tension will never have the air-tight certainty of strict adherence to moral absolutes. Nor will they produce instant salvation. Living in the midst of such a tension will not provide total security. But it may be the only way to restore integrity to our political processes, health to our common life, and an antidote to the "arrogance of power."

Drawings From Life

Margaret Roth Brown '60

Being a devotee of Margaret Roth Brown's ('60) enchanting animals, we asked her permission to share them with you. In the form of postcards they have developed into such a successful enterprise that the number sold each year runs into six figures, and additions to the family are greeted joyously by collectors. All the animals are inhabitants of the National Zoological Park, Smithsonian Institution, Washington, D.C.

How and where did it all begin? I can talk about my art activities as a child; they were like any other child's. I loved to color, cut-out, and paint. In my day, unfortunately, art classes in primary schools were few and far between, so I drew stick figures and lots of houses with smoke coming out of their chimneys. At Connecticut I majored in art, taking mainly studio classes. Little did I realize its importance to me. I always thought of this interest in drawing as a hobby—something to fall back on during empty days, certainly not as a way to earn money and not as a way to fulfill a part of me that needed that fulfillment.

In August of 1967 I was married. That same November I was widowed. I married late, at 28, and naively thought I had finally gotten my life somewhat together, but all this was shattered with the death of my husband. Yet that trauma brought me face to face with feelings and emotions I didn't know existed in me. Slowly, ever so slowly, I emerged, and one part of this process included visits to the Washington zoo where I started to draw animals. My drawings in those days involved a few hours here, a day there, more time when I had it and felt like it. I ended up with several pencil drawings and loving the rotund hippos the most!

A friend, who was so important in my life at that time, suggested I make some money with the drawings. That friend, Ann Hartman '59 (also an art major), suggested that I have the animal drawings reproduced as postcards. What would one do without friends? Ann gave me the name of a printer, and off I went. After the printer looked at my drawings he said they must be done in pen and ink as pencil would be too expensive to reproduce. He also asked skeptically where I expected to sell them. Not completely daunted—the course of success is never smooth—I returned in two months with four pen and ink drawings. These were printed and formed the nucleus of my present postcard collection. That was back in 1968. In the intervening years the group has enlarged. I added some and subtracted some. Currently there are fourteen with two more in the works. They sell from coast to coast through an outlet in Texas; I handle all museum, zoo, and non-profit institutional sales myself.

I have had ups and downs in the business. Some of the downs were rejections of my drawings (all must be approved by the zoo) and five lawsuits against people who infringed on my copyrights. The drawings have been used illegally in a poster, on picnic baskets, as postcards, on a menu, and in advertising. Two lawsuits ended in payments while one is still pending. Of special interest is that Connecticut College classmates discovered two of these plagiarisms for which I am ever grateful.

There are highlights as well. During these years I made the most important discovery of all. I love to draw, and it is a vital part of me. I envy younger women of today who get to know themselves at a much earlier age than I did and who can make this determination sooner. In my college days I was so far removed from this personal realization. So the years have helped.

"Joe Smith"—Hippopotamus, *Hippopotamus Amphibius*

"Joe Smith"—Hippopotamus, *Hippopotamus Amphibius*
 "Arusha"—Hippopotamus, *Hippopotamus Amphibius*

But don't misunderstand. I am not a real "artist" artist. I am a person who hankers to draw, who likes to do it for hours at a time, who has all the feelings that go with good drawings, bad ones, mediocre ones, and just right ones. And I know my involvement will deepen with the years as I explore different avenues for my type of drawing.

Last year, from February to November, I worked on a coloring book based on exhibits in the Smithsonian Institution. It took a long time, but with a four-day work-week at the Library of Congress and the pitfalls of being a beginner in the "putting-a-book-together" department, I figure I did the best I could. Although the coloring book will be for sale this month, the true test of its success will come next spring. There is nothing like the tourists in Washington from March to April to test out a new product!

So now it's back to the zoo to do more drawings, and it's on to a new idea I have for another little book. I need my current Library of Congress job for practical purposes and mortgage payments, but maybe in the future I will be able to do more drawing and less job. It's an exciting unknown.

The Future of World Peace Through Law

Louise W. Holborn
Emeritus professor of government

Recently more than 2,500 delegates representing 123 countries assembled in the beautiful city of Abidjan in the Ivory Coast for the Sixth World Conference on World Peace Through Law and the World Assembly of Judges. For the first time the conference was held in Africa. The newly finished Hotel Ivoire contains a huge and beautiful Congress Hall which was inaugurated by a ceremonial session chaired by the President of the Ivory Coast Supreme Court, Alphonse Boni, and addressed by President Felix Houphouet-Boigny of the host country, Earl Warren, the former Chief Justice of the US, and Mr. Rhyne, President of the World Peace Through Law Center. Supreme court judges of numerous countries, many of them attired in scarlet robes, and African participants in colorful gowns gave brilliance and grandeur to the occasion.

The Center, which sponsored the conference and looks back on ten years of activity, is a non-governmental agency of lawyers, legal scholars and others concerned with the development of law. It has participants in 135 countries working together to create rules of law and legal institutions to improve the chances of establishing world peace through law. The Center itself makes a continuous effort to create and maintain a worldwide dialogue on ideas, programs and efforts seeking to bring about the acceptance of more international and national law related to human rights and to the release of tensions through legal procedures.

More than twenty workshop panels dealt with such international law issues as Human Rights, Terrorism, Development Law for Developing Countries, International Control of Dangerous Drugs, International Legal Education, Law on Outer Space and on the Sea, and other pressing topics. In addition, a demonstration trial was held on International Skyjacking.

There were also many plenary luncheon speeches. Philip Noel-Baker of the United Kingdom, who had been an ardent internationalist in the League of Nations, gave a moving speech on the efforts in search of peace through the League of Nations and the United Nations by establishing the rule of law. Although he did not minimize the problems and setbacks that have occurred in the past, he pointed out the gradual progress made on the international scene to relieve tensions between states by international cooperation and development of international law, particularly in safeguarding human rights. Supreme Court Justice Thurgood Marshall, in another luncheon address, gave a challenging and penetrating address on the need for rule of law in the international field.

At the final luncheon meeting four women whose careers have advanced international understanding received the *Pax Orbis Ex Jure* award. The recipients were Jeanne Martin Cisse, former president of the UN Security Council; Dr. Angie Brooks-Randolph, past President of the UN General Assembly; Shirley Temple Black of the

US Council on Environmental Quality; and Mrs. Chang Ching-Lan, Supreme Court Justice, Taiwan.

Earl Warren set the stage for the central topic of human rights by introducing the panel on Universal Declaration of Human Rights. The Declaration, a magnificent proclamation of the emancipation of man and unanimously accepted by the UN, is now twenty-five years old. Its provisions, representing the aspiration of peoples of all races, are the outgrowth of ideas developed over many centuries and by many civilizations. However, the Declaration has been disregarded all too often by governments, and breached too frequently. On the other hand, many States have included the principles in their constitutions and acted according to them, and the Declaration has been invoked so many times both within and outside the UN that it has become part of the customary law of nations. Supporting it are the leaders and members of voluntary organizations and wide spectrums of public opinion.

The Conference's aim was to advance the cause of human rights by focusing world attention on constructive steps that can be taken, by working for accession of more countries to relevant treaties already in existence, and encouraging the development of mechanisms to enforce the provisions of those treaties. Above all, the Conference aimed to build wider public insistence on world-wide respect for the principles of the Declaration of Human Rights. In order to promote progress in the protection of human rights throughout the world, the Conference urged creation of a World Court of Human Rights, a High Commissioner for Human Rights, and an increase in the activities of the UN Secretariat in implementing human rights covenants, agreements and treaties.

The panel on which I served dealt with human rights for refugees. While the refugee problem is an age-old one, in the twentieth century it has involved the fates and sometimes the lives of literally millions of people, particularly in Europe, Asia and Africa. During and after WWI and II, millions of human beings were uprooted and deprived of their rights as the result of prejudice or injustice or violence or fled from oppression in search of freedom. When they became political refugees, they lost their nationality, which meant that they lost the protection of their country of origin without gaining that of the country of refuge. In other words, they were stateless *de facto* or *de jure*; they belonged to no man's land since in traditional international law nationality is the principal link between the individual and the State. Under the League of Nations and even more under the UN—from 1921 to the present—this situation has been somewhat remedied by establishing international agencies to deal especially with refugees and by concluding treaties providing them with a special status.

Our panel took into account the achievements of the past decades—the establishment of a series of interna-

tional agencies (the United Nations High Commissioner for Refugees has now been in existence for twenty-one years) which are concerned with finding solutions for refugees through repatriation, or settlement locally or overseas, and the adoption of conventions, of which that of 1951 provides the widest range of rights for refugees who are still in the process of being settled. It provides the right to asylum, to freedom of movement and to earn a living and other opportunities for the millions in refugee status. About half the countries of the world have bound themselves to abide by this 1951 Convention Relating to the Status of Refugees.

We focused, however, on what still needs to be done. My topic was Family Reunion, something not limited to refugees but of particular importance to them since members of their families are so often scattered among different countries. Recalling Article 16, 3 of the Uni-

versal Declaration of Human Rights, the Conference passed a resolution urging "Governments to take all necessary steps to facilitate the reunion of families," since "the unity of the family, the natural and fundamental group unit of society, is an essential right of the refugee."

Other resolutions urged governments to live up to the generally accepted principle of non-refoulement—according to which no person may be compelled to return to or remain in a territory where he has reason to fear persecution—and to consider the granting of asylum as a purely humanitarian and non-political act which should not be regarded as unfriendly by any other state. The Conference further urged governments to ratify or accede as widely as possible to the international instruments adopted for the benefit of refugees and to implement such measures by legislation or ad-

Dr. Louise Holborn: A Life of Theory and Practice

Louise Holborn has said, half in jest, that she has lived four lives. Even a brief glimpse at her rich past and busy present testifies to that. She has not only taught about those politically complex decades but has been an actor in them. Louise Holborn is proof that the conventional notion of scholar as detached on-looker is inadequate.

Her former students at Connecticut tend to think of Louise Holborn solely as a sympathetic yet demanding presence in Fanning Hall, but Connecticut constituted only one "life" among her many. What she taught us on the 3rd floor of Fanning derived from her earlier lives in Germany, Cambridge, and Wellesley. What she cultivated at Connecticut has become an important part of her later life lived in Cambridge, Florida, and internationally.

It was in Germany, in the traumatic wake of World War I, and as a social worker, that Louise Holborn began her career. She was called upon to work with Protestant, provincial, and federal authorities in the resettlement of Polish Germans displaced by the post-Versailles diplomatic maneuvers surrounding the famous "Polish Corridor" on Germany's eastern border. As she was to so forcefully underscore decades later in her teaching, diplomacy and boundary disputes involve not just power

but people. Louise Holborn recently recalled her efforts in the Polish-German zone to create organizations which could enable displaced German women to help themselves. She approached a German Protestant pastor asking to speak to the women in his congregation. When the pastor refused, asserting that no woman had ever spoken inside his church and no woman would, Miss Holborn, the young social worker, replied simply, "Then I will have to speak on the steps outside your church." The abashed pastor changed his mind.

In the 1920s the political dimension of Germany's problems led Louise Holborn to return to school to pursue political studies; but by the next decade politics had become fraught with danger, especially for an outspoken opponent of Fascism. In 1934 Louise Holborn left Germany for Britain, where she studied at the famed London School of Economics. The late Hajo Holborn, her well-known historian brother, was also forced to leave, going to London and then to Yale. But other members of their family remained in Germany and during the later Thirties Miss Holborn undertook the risk of returning to Germany.

From London she came to the United States, where she took her Ph.D. at Radcliffe and made her teaching

ministrative provisions, recognizing that international humanitarian action on behalf of refugees has contributed to the establishment and/or maintenance of peaceful relations between neighboring states. The conference also urged governments and interested international organizations to be guided by the concept of international humanitarian solidarity and to facilitate the integration of refugees, including their acquisition of nationality of their country of residence in all cases in which voluntary repatriation does not constitute a possible solution.

The US is not unfamiliar with the problems of refugees. Not only has it contributed generously to private and public efforts on their behalf in many parts of the world, but it has also received over 350,000 Cuban refugees and today is extending homes to more than 1,500 Asian refugees driven out of Uganda. Other countries have

settled far more refugees. The African countries in particular have been very generous in giving asylum to refugees and have provided land for them on which they can build a new life and contribute to the economic development of their new country.

By bringing together so many prominent and responsible people from all over the world (except, unfortunately, from the Soviet Union and the People's Republic of China), the Sixth World Law Conference has given fresh impetus to the building of safeguards for human rights. This is particularly the case for international refugees whose position has never before been presented to so representative a gathering. But the long-range effects of the meeting depend on the response not only by governments but also by public opinion. In the end it is up to all of us.

debut at Wellesley. The experience proved once again that politics and political science are not easily isolated from one another. The time was the late 1930s, before the United States was in the war but after the rise of Hitler and the hoisting of warning signals in Europe. When Wellesley invited as a visiting lecturer a professor from Austria who was known, at least abroad, to have Nazi associations, Louise Holborn was the first to speak out in protest. Even academia-wise students warned her that a young professor so low on the faculty totem pole should remain silent on such sensitive matters, but the issue was too crucial to be treated with careerist prudence, and Miss Holborn persisted. The outcome was widespread faculty support for her position but eventual resignation from Wellesley.

*From 1947 to 1964 Louise Holborn taught comparative government and international relations at Connecticut. For different generations she interpreted the founding of the United Nations, the rise of DeGaulle, the Cuban missile crisis, and the Middle Eastern wars. At the same time she was pursuing her life-long personal and scholarly interest in the problems and political treatment of refugees. In 1956 Oxford University Press published her study of the League of Nations and refugees, *The First**

High Commission for Refugees of the League of Nations, a volume now considered a classic in the field. In 1971 she was awarded the distinguished "Golden Nansen Ring of Honor" by the government of Norway for her outstanding work on refugees.

*For many scholars this would all constitute a worthy justification for retirement. Upon retiring from Connecticut College, however, Louise Holborn accepted a fellowship at the Radcliffe Institute for Advanced Studies, where she taught seminars on international migration and continued her scholarly work on refugees and her lecturing in Europe. The culmination of this work has just gone to press. *Refugees, A Problem of Our Time: the Office of the United Nations High Commission for Refugees is to be published by the Scarecrow Press in 1974. It is destined to be the definitive work in its field. Within its covers will be not only exhaustive documentation but the fruits of on-the-spot interviews in Tanzania, war-torn Sudan, and elsewhere. In it will be the perceptiveness derived from a youth in Germany, decades of teaching in the United States, and, throughout it all, an acute awareness that scholarship and political reality are inescapably intertwined.**

C.H.E. '60

What Are Classrooms Coming To?

How many uses can you think of for a brick?" "Think of all the ways you might change the chair you are sitting on to make it better or more comfortable." If you can suspend judgment temporarily and let your ideas flow, you have begun to understand "brainstorming," an important part of creative problem solving.

Questions like these are asked in a Connecticut College course called *Creativity and Learning*, a course designed to stimulate creative thinking and problem solving as a part of educating teachers for the elementary schools of the future, in which creative or divergent thinking will be the accepted mode, along with analytical and convergent thinking.

What is a double petunia? A petunia is a flower like a begonia. A begonia is a meat like a sausage. A sausage-and-battery is a crime. Monkeys crime trees. Tree's a crowd. A crow crowd in the morning and made a noise. A noise is on your face between your eyes. Eyes is opposite from nays. A colt nays. You go to bed with a colt and wake up in the morning with a case of double petunia.

Can you write a paragraph like this? This exercise in language and humor comes from Alex Osborn's *Applied Imagination*.¹ Students in Education 309 are asked to write their own versions after reading similar paragraphs written by gifted nine and ten year olds. The purpose of such unorthodox activities is to open students' minds to the possibilities inherent in divergent thinking while encouraging them to develop verbal imagination, humor and a flexibility in thinking which can meet and accommodate whatever the education of the future holds.

Variety and alternatives will be characteristic of schools of the future, as they are increasingly at the present time. The aim of teacher education at Connecticut College is to acquaint students with a variety of classroom structures, strategies, ideas, materials and machines, and at the same time, to develop their natural bent towards humanistic, child-centered teaching.

Highly motivated, intelligent young men and women, Connecticut College students in elementary education are sensitive and dedicated to the needs of children. Their liberal arts background combined with sound knowledge of child development is an excellent preparation for elementary teaching. Education courses, we believe, should expose them to educational models for their consideration, while encouraging them to develop an educational philosophy and teaching style of their own. Rather than presenting "methods" as such, we try to discover with them a less traditional, more individualized approach to teaching with emphasis on creative thinking.

"I hear and I forget, I see and I remember, I do and I understand," is a Chinese proverb often quoted in explaining the manipulative, discovery approach of the

Beth H. Hannah

Associate professor of education and coordinator of student teaching

informal or open plan British infant schools and the American open classroom. It is our belief that the proverb applies in some degree to education students in college as well as to children in elementary school.

The *Creativity and Learning* course attempts to involve college students in doing some of the things they will expect their children to do in the classroom. For example, students in the class lead discovery lessons in science; they also take part as if they were children making discoveries of their own. Painting with tempera at an adult-sized child's easel is required of each student, along with discussion of what a teacher might say when looking at a child's original painting and how the child might feel. Modelling in clay, experimenting with a math geoboard,

¹Alex Osborn, *Applied Imagination* (New York, 1957), p. 116.

working with an abacus and exploring the uses of cuisenaire rods are included in class activities.

Although verbal learning is considered extremely important in the discussion and analysis of textbooks on creative approaches to teaching math, science and social studies, students are also expected to try things out for themselves, to attempt new techniques, to collect and create materials which will suit their purposes in helping a child to understand. Performance in the workshop classroom is a prelude to performance during the eight-week student teaching period. After student teaching there is a three-week period of three hours a day, three days a week for sharing and evaluating teaching ideas and original activities, again through performance and

participation in the *Creativity and Learning* course.

During class discussions, students are asked to consider basic questions such as, "What is math?" and "What is/are social studies?" and how do they themselves feel about each subject area? Students consider how subjects may be taught in a way that will involve children and lead them to a positive attitude towards school and continued learning. This sometimes calls for an attitude change on the part of the student teacher, especially those who "never liked math" or "have a block when it comes to science." We are concerned that they not pass on their prejudices to children. Discussions of stereotyped sex roles in the elementary schools reveal further prejudices student teachers may need to modify before entering the classroom as professional teachers.

Setting up a Classroom

We begin the first day of class in Holmes Hall auditorium, a room entirely empty and barnlike. Students are asked to move around the empty room, to feel the space, and to get acquainted with their surroundings (with their bodies as well as with their minds). Beginning on that

Looking Back at the student

Looking Now at the alumna

Emily Madoff '73

Looking back, I can see that I didn't become a working woman on the exact day that I began my job. Like all real changes, it was a metamorphosis, and it took time. My perspective had to change, not just the situation. I can pinpoint no moment when the change occurred, only the moment when I realized that it had already happened and there I was—employed. After all the years of wondering and projecting, and then planning and wondering some more, I woke up one morning and had: an apartment with a lease, a clogged drain, and a letter from my alma mater.

I must confess that it's hard to dissect the elements of my new position. Five months ago when I was a student, it would have been a lot easier to talk about the concept of time and the way it does its work. I would have had a plethora of words to say about how what is now the present gets pushed backwards to become the past, and how what is now the future becomes the present, engendering in that movement a new future and a longer past.

The explanation for this switch is clear. As a student it was the concept surrounding the event which concerned me. From my new perspective in the ranks of the employed, it is the event itself which is significant. For example, the first official gesture in my new job was to sign my name to a life insurance policy provided by my employers. I had been out of school for exactly one week and was still imbued with a student's spirit. As a result, I saw my signature on that piece of paper symbolically; I was signing my life away. I went so far as to figure it out mathematically. A normal work week consists of 120 hours (five 24-hour days). Working nine to five binds my day at both ends. Since I have to be in bed by twelve in order to be up at eight, essentially I have only the hours between seven and midnight to myself.

A student's schedule, on the other hand, is far more flexible. A normal course load accounts for ten classroom hours per week, leaving the rest of the day unaccounted for. There were always homework and meals, but it was pretty much up to me how to order them. Simple arithmetic proves that the conversion from a student's life to a working schedule results in a net loss of 85 hours per week of free time. A staggering figure, indeed!

But that was five months ago. As I sit at my kitchen table now staring vacantly at the mounds of dirty dishes waiting to be scrubbed, I remember fondly but vaguely the girl who went home that day and cried because life was so threatening. Somewhere in the past twenty weeks, a student has faded and an alumna has emerged. There has been a change, the question of its content still remains.

I think that the primary distinguishing factor between a student and a working woman can be found in one word: *Reality*. For students, reality is taboo. "There is no reality" and "How do you know this chair is real?" are keys to collegiate thinking. Now that I have a job which demands that I *do* more, and *think* about it less, I know

"Simple arithmetic proves that the conversion from a student's life to a working schedule results in a loss of 85 hours per week of free time."

Looking Ahead: the New Student-Alumni Committee

Martha Sullivan '72

It's about time we each discovered that the other isn't so bad." This comment, made at reunion by a member of the class of '23, was in response to a report on the alumni association's efforts to improve relations between students and alumni and to involve recent graduates in association affairs. In the spring the alumni association had closely examined this situation, its causes and ramifications; and as a result, several possible remedies had been developed.

During the past few years the association has moved into new areas, ranging from extending education projects to student-oriented programs such as the Career Internship Program. Aware of its audience of almost 12,000, the association has taken bold steps to involve alumni in the college and to bring the advantages to be gained from the college to alumni. The broad area of young alumni-student relations is the newest project to be taken on by the executive board.

Traditionally, recent graduates are not active in alumni affairs. Top priority after graduation is given to establishing careers, settling into a new life-style, and enjoying the initial freedom from academic confinement. It is a natural phenomenon; but with 46% of our alumni body having graduated since 1960, the board recognizes the importance of developing a bond with this group. By cultivating such a close relationship with its young alumni, the association can gain considerably in talent and leadership.

To correct the situation the board analyzed the lack of involvement on the part of young alumni. Through discussions with both young graduates and undergraduates, it was discovered that the basic problem is lack of communication between the association and prospective alumni while they are still students. At the time of graduation, seniors know very little about our association. Many of them have false images of alums and are unaware of alumni programs; therefore they have little desire to associate with us or participate in our activities.

The adjustment following graduation is a difficult one. Young alumni, faced with the difficulties of adapting to a new life and their own personal struggles, are not prepared for the AAGP appeals thrust at them—often their first introduction to the alumni association. When this is their only tie with Connecticut, they feel alienated not only from the alumni association but from the college as well.

This past year the executive board has attempted to ease this crisis and to enlist the leadership of its younger members. An increase in communication among all college groups was the key in each case. Articles reporting executive board meetings in detail were published in *Pundit* where students could read about our functions, current projects and goals. The successful Career Internship Program last spring brought together participating juniors and their sponsoring alumni. Two formerly

"In addition to its other assets, this committee also offers the opportunity to discover 'that the other isn't so bad.'"

Today's Teacher— Tomorrow's Telecaster

Pamela Gardner '72

"The image part of the medium (television) is as rich as man's awareness of imagery and is as varied as man's mind. This is why we have maintained that the future use of the medium is coincident with the education of telecasters in the use of themselves as people who can reach the dynamics of seeing, imaging, and imagining, and can find in the medium the infinity of the uses, known or still unknown, of man by himself."

To some skeptics, Caleb Gattegno's statement from his book, *Towards a Visual Culture: Educating through Television*, may sound far-fetched and fanciful. Yet today, with the official sanction of the national Office of Migrant Education, the New Jersey Office is transforming this man's vision into reality through Pilot V, an educational project which integrates public, commercial, and educational television. This pilot project, which to date is being implemented in six rural South Jersey school districts, provides the benefits of a teacher-controlled television curriculum based on the educational needs of migrant children.

The history of the migrant child in the United States is one of rootlessness. *Title I Program Information Guide #28*, issued by the U.S. Office of Education, states that "A migratory child of a migratory agricultural worker is a child who has moved from one school district to another during the past year with a parent or guardian who was seeking or acquiring employment in agriculture, including related food-processing activities such as canning."

What are the innovative aspects of Pilot V which are helping to educate the migrant child of today? What are the implications of this program for the future of educational TV programming? After describing the background of the migrant child, I shall proceed to a discussion of the Pilot V of today and tomorrow. During this latter portion, I shall explain how, through Pilot V, today's teacher is indeed slowly becoming tomorrow's telecaster and will thus better equip students to cope with the labyrinth of challenges the future carries.

According to *Title I Program Information Guide #28* mentioned earlier, there are three basic types of migratory children. The "Interstate Migrant" has moved with a parent or guardian within the past year across state boundaries and is expected to continue to migrate across state boundaries; the "Intrastate Migrant" moves with a parent or guardian from one school district to another within a state; the "Formerly Migratory (Five-Year Migrant)" is either an interstate or intrastate migrant who, along with his parent or guardian, has stopped migrating within the past five years.

The concept of Pilot V emerged, therefore, because of educational concerns for the thousands of migrant pupils who attend schools in New Jersey and across the nation. These youngsters, children of Blacks, Whites,

Puerto Ricans and Mexican-Americans, are usually socially and materially deprived and suffer from discrimination and the lack of educational opportunities available to their peers. Statistics have demonstrated a one-to-four years' lag in the academic areas, which, unless remedied, will continue to produce severe regressions in learning achievement. The mobility of the migrant child limits his educational opportunities. His education has little or no continuity, as he often spends a short period of time in many different schools during one growing season. Cultural differences and language barriers often make the migrant child feel insecure and unable to function when he is in school.

Because of these children's unusual problems, schools formerly could not meet the students' needs. A shortage of funds, personnel and understanding of the migrant culture often resulted in a lack of services for the migrants. Similarly, states could not help the students because they did not have the capabilities of starting alone and implementing full scale educational programs.

Pilot V has, therefore, developed a special media-oriented curriculum to meet the migrant child's unique needs: to help him feel more secure, enrich his self-confidence, improve his self-image, and fill in his educational gaps. Pilot V is using the latest television technology to help the child learn more quickly and efficiently.

This program also trains teachers to continuously assess the educational needs of migrant children; to write curricula to fill those needs; to develop videotapes to supplement lesson plans and teacher guides; to train other migrant teachers in the use of Pilot V curriculum; and to educate migrant children, using the latest educational methods coupled with the latest educational technology.

After the comprehensive *Needs Assessment* was researched and written last year by the teachers on the Special Teacher Task Force (one teacher representing each school district), Pilot V isolated three philosophical tenets which today bind together the educational disciplines of language, math, reading and social awareness. First, since many migrant children are non-English speaking, Pilot V's bilingual approach provides videotapes in English and Spanish to teach each educational concept. Secondly, since each child has a wide range of educational gaps, the curriculum is supplemental and can be interwoven into any school curriculum. Thirdly, since teachers in any given classroom with children of varying abilities need the freedom and flexibility to work with large groups, small groups, or individual children, complete teacher control is inherently structured in the Pilot V curriculum.

Each individual lesson consists of four parts: pre-teaching activities, videotape, post-teaching activities and validation forms. As the pre-teaching and post-teaching activities are based on child development and learning theories, they involve the total child as often

as possible—auditorily, visually, kinesthetically, tactually, and through motor skills.

Each videotape—approximately ten minutes long—develops one learning concept founded upon behavioral objectives derived from the *Needs Assessment*. The video lesson presentations, because they are highly visual and auditory, sustain the children's interest. The broadcasting experience of the professional production crew enables Pilot V's curriculum tapes to rival the most popular and successful educational programs. The validation forms are used to tabulate the children's answers to questions based on the pre-teaching activities, the videotapes and the post-teaching activities.

In the future, when other states adopt the Pilot V concept, they will see the following changes: school administrators' attitudes toward classroom television will change as they see how Pilot V helps their students and teachers grow, and instructors' beliefs will change as they discover, through in-service training provided by Pilot V, that the television equipment is an aid, not a threat, to them in the classroom.

The children's attitudes towards themselves and their peers will improve because of the educational and cultural exposure that Pilot V provides via the television medium.

A young migrant boy paints a puppet head he has made. This project is one of the many hands-on post-teaching activities developed by Pilot V.

Kurt Vonnegut, **Slaughterhouse Five**, New York, 1969.

H.G. Wells, **The Time Machine and other Stories**, New York, 1963.

The future: "Any time after the present." It's as immediate as a picosecond (a trillionth of a second) or as far off as infinity. It holds immense promise; it encompasses limitless disaster. Men of literature and science debate its potential. The ordinary citizen alternately fears and anticipates it.

From the beginning of recorded history men have seriously considered both its possibilities and its problems. In fact, futurology, or the notion of trying to predict or fashion a desirable future for the world, presumably started with the Greeks. Plato's *Republic* and the classic myths suggested dreams of human perfection as did the Biblical prophets and medieval visionaries. In the Renaissance, Sir Thomas More in his *Utopia* also wrote about ideal perfection (incidentally, "utopia" is translated as "no place").

Today, both the writers of fictional Utopias and the contemporary futurologists in their slick think tanks share the same goal: examination of possibilities for the future. The futurologists busy themselves with analytic models, scenario-writing and other kinds of projections while the Utopia or science-fiction authors scribble away—both trying to chart the promises and threats of tomorrow's world.

The Utopian writers from Plato to H.G. Wells built up imaginary civilizations emphasizing a "trinity of science, technology and machinery" with a heavy dose of planning for these ideal lands. The underlying premises of these Utopias were that man is good; he is plastic; society's and his happiness are interdependent; the future holds limitless possibilities; man does not tire of happiness; rulers rule justly; and Utopias do lead to freedom.¹

Later writers, however, did see some clouds hovering over their crystal balls. In Samuel Butler's *Erewhon*, the "Book of Machines" shows technology developing independently of human beings with man becoming the slave of his machine. Edward Bulwer Lytton in *The Coming Race* has future man living his years underground. In his land of Tomorrow the inefficient are killed and science is king.

The hero of George Bernard Shaw's *Back to Methuselah*, living in the year 31,920 is perfection itself but

Barbara Gold Zingman '50

Louisville Times book reviewer

bored. As J.C. Garret suggests in *Utopias in Literature*, we desire evolution, but we don't want it to go too far. Increasingly, he states, we fear Utopia.²

Twentieth-century writers are even more savage in their predictions. Aldous Huxley, writing in a preface to the 1932 edition of *Brave New World*, admits that the "choice between insanity on the one hand and lunacy on the other was one that I found amusing and regarded quite possibly as true." He adds that "science and technology must be used as though, like the Sabbath, they had been made for man, not (as at present and still more in *Brave New World*) as though man was adapted and enslaved to them." "The final revolution," Huxley warns, "is in the soul and flesh of human beings."³

George Orwell's *1984*, like Huxley's *Brave New World*, envisions the dangers—social chaos and totalitarianism—resulting from too rapid technological progress. Some of the current science fiction writers, too, such as Anthony Burgess in *The Wanting Seed*, John Brunner in *Stand on Zanzibar*, and Kurt Vonnegut in *Slaughterhouse Five*, emphasize the bleak side of the future. According to these pessimistic prognosticators, both the end of this century and future centuries will be grim with nuclear holocaust, world starvation, totalitarianism, overpopulation and economic disaster.

As a matter of fact, much of today's science fiction stresses the fact that science serves itself better than it serves man. Like the older utopian fiction writers who foresaw the conflicts between the humanist and the technological society, today's foreboders about the future actually mirror their worries about life in the contemporary world.

Indeed, they envision that war may be more prevalent with new and more horrible weapons in the offing. Moreover, if war won't do away with us, some of the fiction writers foresee that overpopulation will. Thus, in Burgess' *The Wanting Seed*, heterosexuality is outlawed; homosexuality is the only viable alternative to untrammelled population growth. Vonnegut's *Slaughterhouse Five*, on the other hand, prescribes numbing the body from the waist down as its particular form of birth control.

Non-fiction writers like Alvin Toffler in *Future Shock* also try to warn us about "what happens to people when they are overwhelmed by change...the ways in which we adapt or fail to adapt to the future." His book not only evaluates the rapid changes in which we are involved today but also indicates the personal, psychological and social consequences of these developments.⁴

Unlike his fictional counterparts, however, Toffler believes that the future can be used as a challenge, and

An A+ for President Shain

In June a Connecticut College era will end when Charles Shain, honorary member of the class of 1919, leaves the president's office.

For these past twelve years, members of the alumni association have worked to adapt its purpose and progress to the changing needs of alumni. During this time, the enthusiastic support and cooperation of Charles Shain have been vital to the quality of the *Alumni Magazine*, the success of alumni council, reunion weekends, annual giving, and the new innovative programs in continuing education.

None of these activities would have flourished so hearteningly without Charles Shain's interest and help. He has earned a well deserved A+ for all his efforts in our behalf.

Priscilla Duxbury Westcott '41
Hingham, Mass.

Mixed Feelings

After the initial moment of surprise, the news of Charles Shain's resignation evoked for me mixed feelings of relief and regret.

Relief, because in my years at Connecticut College I grew to regard Charles and Jo Shain as firm and trusted friends, and I am happy to know that my friends are to enjoy a well-earned respite from the burden and pressures placed upon a college president nowadays.

Regret, because Connecticut College can ill afford to lose the energy, imagination and openness that Charles has given unstintingly to the college over the past years. One of the most valuable aspects of my own years at Connecticut College was the experience of working with Charles, of knowing his support, of benefiting from his honest and friendly counsel, of learning from him as he handled with grace the tensions of the past few years.

I would, then, congratulate Charles and Jo on their decision and commiserate with the college on its loss, and on the difficult task it faces in the months ahead of finding a worthy successor.

J. Barrie Shepherd
Wooster, Ohio

High Praise

Connecticut College Alumni have felt very comfortable with Dr. Charles E. Shain as President. Perhaps that seems like less than high praise for the profound scholar, extremely able administrator, sincere, amiable and effective president we have had in office for the past twelve years. But, nonetheless, it is high praise.

During President Shain's term in office colleges have experienced dramatic changes: student unrest; alumni dissension; economic crises; coeducation; issues of morality, academic discrimination, and the role of the college in the local community. Connecticut College was not immune to any of these, nor did its president turn his back on one. His thorough knowledge of each situation and his quiet, firm confidence sustained the college during the debating period but ultimately moved it forward.

Charles and Jo Shain have offered warm and gracious hospitality to students, faculty and alumni, and we hope they realize that their many personal efforts in our direction have not gone unappreciated.

The position of our college today is, in itself, a tribute to President Shain's administration. His "Ship of State" is sailing on smooth waters, and I feel very comfortable with the course he has charted.

Mary Anna Lemon Meyer, '42
Oyster Bay, N.Y.

C.C.'s Outstanding Ambassador

To students, parents, and alumni, Charles Shain has been a friend. With his natural charm, his intellect and keen sense of humor, he has a way of presenting any subject germane to the college that makes us attentive and interested. One of his innovations, The President's Conference, brought alumni much closer to the college scene. Programs presented by students, faculty, and administrators made those attending realize how smoothly the college is run—particularly the transition to co-education.

Tweedy or Ivy League in appearance, he is nonetheless *mod* in his approach to making education at Connecticut relevant to today's world. Wherever he has travelled on behalf of the college, he has been its outstanding ambassador. Although we shall miss him, we are happy in the knowledge that he will enrich the lives of others as he has ours.

We shall also miss Charles Shain's charming wife, Jo.

Betty Gordon Van Law '28

CLASS NOTES

20 Kathryn Hulbert Hall is back in the mainstream of life, after her two-year involvement with the terminal illnesses of her stepmother-in-law 88 and her sister 87. Kay found an interesting challenge in the Local Council on Aging with their R.S.V.P., and worked during the winter at the TV headquarters of Zoom answering nation-wide letters from children.

Eunice Gates Collier and Douglas toyed with thoughts of their annual jaunt to England but find Mason's Island so, so comfortable. Their granddaughter—also Jean Sawin Hawley's '19—was married this summer.

Emma Wippert Pease received a First award in a C.S.F.W.C. annual competition with a 1500 work story, "Goodbye, Mr. Thrips—A Flower Show Happening."

 **Marion Gammons** protested directly to Mr. Trudeau over Canada's sanction of autumn-migrating robins being slaughtered wholesale in New Brunswick blueberry farms and joined in alerting many uninformed nature centers, with the result that the birds now have police escort (Mounties) in the fields, no more gun permits are issued and the International Animal Welfare have overhead flights to double check. Marion spent a happy day recently with **Ellen Carroll Wilcox** in Torrington.

Dorothy Stelle Stone adds another C.C. graduate to her family with the graduation of her granddaughter Susanna How Stone, '74.

In Sept. our honorary member, retired Chief Justice Raymond Baldwin, was feted by 1200 guests at Wesleyan Arena, Middletown, with a testimonial dinner marking his 80th birthday.

Dora Schwartz Epstein and Max spent July touring thru Scandinavia; then some time in Aug. at Chatham on the Cape. Their 5 grandchildren attend 5 different schools: The Sudarskys—Lewis a senior Harvard Med student; Betty just graduated from Smith; Debbie a senior at Chaffee and Dora's only hope for C.C.; and the Vogels—Dorry a Vassar senior; and Lisa a Colgate freshman.

Eleanor Seaver Massonneau, happy, healthy and active, considers hers an uneventful but not boring life among friends, volunteer hospital work, and a nearby daughter with her family including two high school students and a new graduate from St. Lawrence Univ. Her other family with 4 children live in Burlington, Vt.

Jessie Menzies Luce and Philip's granddaughter, Virginia Butler, was married in June in Ohio. Having completed her biological science at Mt. Holyoke, she takes her senior year at Miami Univ., Oxford, Ohio, and receives her degree from Mt. Holyoke in '74.

Fanchon Hartman Title was a delightful hostess preceding the class executive board meeting in Hartford. In spite of 96° weather, eight members gathered to consider class affairs, including a forward look at our 55th reunion in 1975.

Marion Warner, having enjoyed an AARP trip, is presently attending an adult education class on "Great Artists of the Western World". She reports that the condition of sister Juline '19, helped by the frequent presence of Harriet, is most satisfactory, and that Wrey and her husband are involved in civic work.

The sympathy of our class goes out to the family of **Helen Duffy**, whose death occurred last spring.

course some of us took in freshman year. One of the tenets of this course was, "There is no danger from dust in repose."

Letitia (Tish) Burt Barker and Henry retired and moved from Camillus, N.Y. to Holiday, Fla.

 **Rosamond (Rosky) Beebe Cochran's** husband Tom retired from the Univ. of Penn. in June 1972 and was given an honorary L.L.D. Retirement has kept them busier

than ever. They were at the Univ. of N.C. in Charlotte for the spring term of 1973 and will return in Jan. 1974. Meanwhile Tom is visiting editor of the American Historical Review for a year while the editor is on leave and Rosky is assisting. They go to Washington on an average of a day a week and spend the middle of the week at Greenville, Del. as senior resident scholar at the Eleutherian-Mills Hazley Library, which means that Rosky gets to Winterthur and the Longwood Gardens often. They play golf when time permits. While they were in Mexico briefly in Aug., their house was ransacked and silver, paintings, a stereo, etc., stolen as well as their car. The car was recovered but they lost some irreplaceable heirlooms.

 **Charlotte Maclear** was awarded a special certificate by the Westport, Conn. chapter of the Red Cross "in appreciation for unceasing devotion to the youth of this chapter."

She was chairman of the youth committee for seven years. She teaches two classes of French a week to adults at the YMCA. Charlotte and her sister Mary C.C. '23 take a trip to France every spring.

Lorraine Ferris Ayres and her daughter Deborah visited the USSR on an interesting two-week tour in June including stops at Moscow, Kiev, Yalta and Leningrad.

Correspondent: Mrs. Payson B. Ayres (Lorraine Ferris), 10 Old Post Road, Cos Cob, Conn. 06807

28 Our class ranks 4th in the number of contributors for the AAGP 72-73. **Margretta Briggs Noble** is chairman of the 1974 reunion committee consisting of **Hazel Gardner Hicks**, **Eleanor Penney Herbst** and **Dorothy Bayley Morse**. The reunion will be held May 24—26 with rooms and meals available at the college except our class dinner at Lighthouse Inn. Hazel and Fort Hicks have invited us for cocktails at their New London home.

Ruth Haas Fassler's note from London begins, "No earth shaking news except that we are having the time of our lives. After being a farmer on farmer's hours from the day he left Yale till a few years ago, Vic retired and now we live 6 mos. at home (Avon, Conn.) in the deep country and go to work at the office every day. I cook; Vic cleans up. Then we come to London for 6 mos. and have a ball going to the theatre, art galleries, museums, and occasional visits to the continent."

Beatrice Lord, in May, was readying for a trip to the British Isles this spring. In Stowe, Vt. she is on conservation and zoning committees.

Catherine Page McNutt wrote from Machu Picchu, Peru. She arrived via the Galapagos Islands and was headed for a river boat on the Amazon.

Ernestine Crone Doan's husband Dan's book, *Fifty Hikes in the White Mountains*, was published this spring. Daughter, Ruth Doan

MacDougall had her 4th novel, "The Cheerleader", published last Jan. Ernie comments, "It's naughty to this old lady but quite an indictment of high school kids' priorities." Daughter Penelope Doan Joyal is living in Me. with her greenhouse and her family.

Marjory Jones, "known to (Yale) alumni around the globe for her key work in the University's alumni relations", retired after 45 years of service. At a large testimonial dinner in June, over 300 Yale officials and alumni officers saluted her and presented her with, among other things, a pair of round trip tickets to Europe and a gift of cash. She joined the Yale staff in 1928, became secretary of the Class Secretaries Bureau, Assistant Alumni Registrar, Associate Alumni Registrar and finally Director of the Alumni Records and Central Clerical Bureau. She is being replaced by two men and—a computer!

Dorothy Davenport Voorhees plans to be on deck for the '74 reunion with NO pain. No limp after a successful total-hip-replacement operation.

Jeannette Bradley Brooks, recovering from a grand baby sitting bout (ages 5 and 2), thinks of the reunion in terms of "maybe".

Elizabeth Gordon Van Law's "biggest thrill of my life was making a hole in one on May 2. I was absolutely stunned."

Edna Kelley and Deborah Lippincott Currier are two recent retirees from Washington, D.C. Kelley "regretfully will not be able to attend reunion" while Debbie plans on our 50th in 1978.

Madelyn Wheeler Chase and Earle live in Lauderdale-by-the-Sea, where the latter enjoys increasingly good health and the former delights in teaching "a smart colored lady how to read and write by the Laubach system."

Ruth Peacock MacIntyre and husband sold their Irvington, N.Y. home and now live in St. Petersburg. "It was a dreadful wrench. We have made the adjustment and love it—the house, the neighborhood, the climate and the companionship of so many of our friends who have moved here from the north. We even have a Fla. West Coast Chapter of C.C." Daughter Sarah, married into the Coast Guard, is at Otis Air Force Base. For the last 25 years Ruth has been "decorating, and lecturing on the subject, for business women's clubs, church groups and college clubs. A few years ago, 'I did quite a bit of work for Catherine Mar Whittaker and thoroughly enjoyed renewing our friendship.' For years Ruth has been fund raising for the College. Recently it became known that 'a total of \$37,500 had my initials (Ruth's) on it but that doesn't mean I didn't have lots of help, for Pres. Park went along with me and helped sew everything into a nice neat little package for the college.'"

Visiting Eleanor Penney Herbst during spring '73 were Catherine Mar Whittaker and Louise Towne Mitchell. Penney's youngest son Richard received his doctorate in applied physics from Stanford Univ. where he is now research associate with his own laboratory. After 4½ years he completed his thesis on crystals, "of which," Penney writes, "I understand not a word but have a copy prominently displayed on my coffee table."

Martha Webb Dumdey and Sarah (Say Say Brown) Schoenhut met in the waiting room of the Hitchcock Clinic in Hanover, N.H. Mickey and husband leave soon for Holmes Beach, Fla. and wonder where all the people are settling who are escaping the rigors of northern winters. En route they stop off in Washington, D.C. to care for two young grands while their daughter is producing the third.

Hazel Gardner Hicks is busy thinking and helping plan our '74 reunion. This winter she and Fort enjoyed two weeks on the beach at

Long Boat Key, Fla. But she concluded, "It was good to be home...I'm glad I didn't miss the laurel."

Helen Boyd Marquis lives on Singer Island and Hazel talked to her.

Hilda Hutchinson Woods is the mother of 6 and busies herself with a part time job selling sport equipment.

Adelaide King Quebman writes of **Dorothy Faerber Hinchcliffe** now living in Phoenix, Ariz., where last June after 7 months of sun came a cloudburst with almost instant floods resulting in terrible loss and damage.

Eleanor Wood Frazer writes, "I must not miss our next reunion and I should go to one of our local chapter meetings—but I feel so old! I can't believe we're in the 'golden years!'"

Margaret Merriam Zellers and **Say Say Schoenhut** had an afternoon's get-together when Jack celebrated his 45th at Dartmouth. Jack is still working and deeply involved in community affairs. Last April they spent 2½ weeks in England, 10 days in a charming country house savoring the English way of life.

Truth Wills Crooks retired as secretary to the curator of the Worcester Art Museum (Mass.). In spite of a bad knee acquired in playing shuffleboard and despite the arrival of a new grandson in May, she hopes to attend our reunion.

Madeline Thune Silver plans on our reunion now that her husband has retired and her daughter married.

Roberta Bitgood Wiersma writes, "Hope to see you in 1974." In Pontiac this spring Roberta directed her own compositions, "an all Bitgood program" arranged by a young organist, "not one of my students but a real fan". She has composed numerous anthems, solos and organ pieces and is in demand for recitals, lectures and clinics in the field of sacred music. This spring in L.I., this summer in Wisc. and Mich., Roberta held classes in organ and choir directing as well as directing as a guest conductor. She is not too busy to take on daughter Grace's weimarner which arrived air express from Calif. Grace completed her advanced studies at Univ. of Calif. and accepted a teaching assistantship at the Chinese Univ. of HongKong.

1928's sympathy to **Helen Beiderbecke Marquardt** whose husband died in Feb., and to **Elmo Ashton Decherd** whose husband died in June. Regretfully your correspondent reports the deaths of two classmates. **Elizabeth Krollik Brodie** died in Jan. at Detroit and **Kathryn Whitely Winslow** in Mar. at New Haven. To each of their families the class of 1928 sends its sincere sympathy.

Correspondent: Mrs. George Schoenhut (Sarah Emily Brown), Five Corners on Potato Hill, Ely, Vt. 05044

30 Mary Clauss Gescheider's husband retired in 1972. Since then they often visit son George and family in Clinton, N.Y. where he is chairman of the Psychology Dept. at Hamilton College and daughter Anita and four grandchildren in Concord, Mass.

Margaret Cook Curry enjoys Fla. living in St. Petersburg near three of her children.

Ruth Litch Redlack, living in N.C., last summer visited son Kimball in Vienna and daughter Shirley and family in Coral Gables.

Constance Smith Langtry and husband recently went to Greece, Istanbul, Turkey and the Adriatic Coast of Yugoslavia. When her husband retires this year as pilot on the St. Lawrence Seaway, they will look for a warmer place to live.

Helen Benson Mann visited Wendy in San Francisco last July. They had a visit from another daughter, Alison, and two grandchildren and from **Katherine Fuller Whitney** and husband last summer.

Evelyn Clarke enjoyed a trip to Scandinavia.

Edith Allen MacDiarmid had a couple of visits from **Eleanor Meurer Chiswell** last summer. Edie planned a trip to Spain, France, Italy and Greece with her daughter-in-law.

Louisa Kent spent ten days last Easter luxuriating on the shores of the Caribbean at Barbados with her nephew and family. In Oct. she goes to Spain, Portugal and Morocco with nine energetic friends, including **Gwendolyn Thomen Sherman**. But "Cape Cod in Aug. is best."

Gwen Thomen Sherman is enthusiastic about her trip with Kentie and friends. In Apr. she, Ann and Sally visited her sister-in-law in Wilmington, N.C. for the Azalea Festival. At home she does community service for the young, the old and her church.

Eleanor Tyler retired last Jan. from her full time job. She works part time in the office of the First Congregational Church in Amherst, Mass., does some volunteer work with the Blood Bank of the Am. Red Cross and as treas. of the Conn. Valley branch of LWV. As Amherst provides many concerts, theater and lectures, Elly enjoys her retirement immensely.

The class extends its sympathy to the husband and sister of **Ruth G. Hodgkins** who died in Maine on May 28, '73.

Correspondent: Mrs. Frank R. Spencer (Elizabeth Edwards), Box 134, Trotta Lane, Morris, Conn. 06763

32 Isabelle Bartlett Hogue found being president of the Fla. Women's Council of Realtors "fun, fattening, and fatiguing—but most rewarding." In a year she drove 11,000 miles and flew many more on speaking tours. When time permits, Sis goes swimming, fishing, or sailing, and "enjoys all the other great benefits of Fla. living."

Ruth Caswell Clapp's husband retired after more than 30 years as pastor of the Portland, Conn. Congregational Church. Soon thereafter Ruth and Ed took off for England and Spain where they visited son Dave and his wife. They have settled in Newington, Conn. where Ed does part time work in a local church.

Susan Comfort cruised to Canada and the Maritime Provinces last Aug. for the 2nd year in succession, occupying the same stateroom on the same ship. She reports that Cape Breton is a must. Sue has "conceded to increasing years" by going on a 4-day work week beginning Jan. 1.

Priscilla Dennett Willard had a busy summer with guests from Ariz., including a visit from Katherine Adams Lodge. Phil drove Kay to Holyoke for a visit with **Gertrude Yoerg Doran** and **Hortense Alderman Cooke**, after which they had a trip to the White Mts. Two visits to Maine added to Phil's "fun" summer.

Mercia May Richards toured Great Britain during the summer and fell in love with North Wales, Yorkshire and Scotland's mountains "where bagpipes are so right." En route to the Adirondacks, Mercia stopped in Vt. to visit **Jean Richards Schramm's** "fabulous" Doll House shop.

Ruth Paul Miller missed reunion because she was in Ariz. for settlement on her new home. She moved there from Pa. in Sept.

Priscilla Moore Brown and Al loved their trip to Hawaii in June, finding especially interesting the volcanic craters on the Big Island of Hawaii and the rain forests of Kauai. They thoroughly explored Oahu by car.

Marion Nichols Arnold and her brother drove to the West Coast last summer, visiting 17 Nat'l Parks and monuments. They plan a trip to the Northwest and Canadian Pacific. At reunion time Marion was enjoying a visit from her daughter and two babies who live in Fla. Her son lives nearby so that she sees grandson Brad fairly often. She is in her 12th year of teaching 2nd grade in Skaneateles.

Margaret Rathbone took another Smithsonian

tour last fall, the Sites of Civilization cruise conducted by Kenneth Clark, author and narrator of the BBC Civilization series. Sailing from Athens on the Argonaut, the tour visited sites linked to ancient civilization in such countries as Greece, Egypt and Lebanon.

Cecilia Standish Richardson, Edith Mitchell Hunt, Catherine Tierney Cronin and their families visited **Ruth Raymond Gay** and her husband at their summer home in N.H.

Mildred Solomon Savin joined the staff of a realty firm in W. Hartford, having completed real estate courses at the Univ. of Conn. Micki is active in a number of civic organizations and does book reviews for various local groups. Several years ago she received the Woman of the Year award from B'nai B'rith.

The 61 questionnaires Hortense Cooke received from classmates before reunion are in a scrapbook in the Alumni Office along with scrapbooks from previous reunions. You'd enjoy looking them over next time you are on campus.

Our class was saddened during the past year by the deaths of **Faith Conklin Hackstaff** in April and **Laura Taft Clements** in June. Faith had looked forward to attending our reunion in May and Taffy was present at reunion just two weeks before she passed away.

Co-correspondents: Mrs. James E. Corey (Kathryne Cooksey), 5801 Massachusetts Ave., Washington, D.C. 20016; Virginia Stephenson, 4000 Massachusetts Ave. N.W., Washington, D.C. 20016

34 Recent additions make the following "grandma bracelets" jingle with charms: **Lucille (Lucy) Austin Cutler 5, Margaret Austin Rodgers 7, Mary Lou Ellis Dunn 8, Elsie Hofmann Bangs 4, Harriet Isherwood Power 4, Mary Lou Mercer Coburn 5, Elizabeth Moon Woodhead 6, Alice Taylor Gorham 4.**

Helen Andrews Keough hopes husband Nick will retire next year—first item on their agenda is a trip to Alaska and then the East Coast.

Elizabeth Archer Patterson spent much of the summer on the golf course, (handicap 19). Betty is still in the travel business, hoping to visit Australia this fall.

Margaret Austin Rodgers still lives in Cleveland, but spent all summer in Fla. because of her husband's five week hospitalization.

Lillian Bacon Hearne visited Nantucket in Sept. "great sailing weather." Son Robert (back from Taiwan), and daughter Susan visited Ginger in N.H. this summer with their families.

Catherine Baker Nordstrom is settled in Fla. near her daughter. Kay teaches math in Fort Myers high school.

Jane Baldauf Berger is busy with volunteer work. She visits Gail and grandchildren in Chevy Chase as often as possible.

Cary Bauer Bresnan and **Marjorie Bishop**, photography buffs, share a dark room. Cary had a vacation in Quebec last summer. Marge tripped off to Iceland and Scandinavia.

Emily Benedict Halverson got into the Sierras when she visited son Roger last fall. Benny keeps on with her library job.

Marion Black, retired after many years as a social worker with the N.H. Dept. of Health and Welfare, thoroughly enjoys her leisure time.

Rose Braxl took a holiday from her hospital administrative duties last summer, with a trip to Indianapolis and Lake George.

Catharine Conroy Hilliar and her husband retired to a 265 acre farm in Vt. Restoring the old farmhouse, raising Herefords, and gardening keep them busy.

Mary Curnow Berger finds fascinating her Red Cross emergency call dispatch job 4 nights a week. Calls for blood, help in fires, and earthquakes make life exciting.

Mildred Doherty Buxton retired as librarian. Her husband is involved with pleasure boating at his marina near Seattle.

Helen Frey Sorenson and Clayton sold their house and summer in a mobile home park near Ashville. They are booked for Nassau at Christmas. A Fla. neighbor worked with **Ruth Wheeler Cobb** (Helen's freshman roommate) in the Red Cross during WW II.

Miriam Greil Pouzzner is a lady of leisure since termination of the Yale-N.H. Hospital program where she worked as a psychiatric social worker.

Mary Lou Hays Ferguson's oldest girl is in NYC; middle one engaged; and third one married, with two children.

Elsie Hofmann Bangs and **Eddie** look forward to retirement in their "house on a lake" in the middle south.

Jeanne Hunter Ingham's daughter Susan is married. Jeanne keeps busy caring for her 83 year old mother.

STATEMENT of ownership, management and circulation (Act of August 12, 1970; Section 3685, Title 39, United States Code).

1. Title of publication: Connecticut College Alumni Magazine.

2. Date of filing: September 30, 1973.

3. Frequency of issue: Four times a year in winter, spring, summer, fall.

4. Location of known office of publication: Connecticut College Alumni Association, Sykes Alumni Center, Connecticut College, New London, Connecticut 06320.

5. Location of the headquarters or general business offices of the publishers: Connecticut College Alumni Association, Sykes Alumni Center, Connecticut College, New London, Connecticut 06320.

6. Names and addresses of publisher, editor and managing editor: Connecticut College Alumni Association, Sykes Alumni Center, Connecticut College, New London, Connecticut 06320; Helen H. Johnson (Mrs. R.H.), R.F.D. #3, Box 300, Norwich, Conn. 06360; Business Manager: Louise S. Andersen (Mrs. H.T.), Conn. College, Box 1624, New London, Conn. 06320.

7. Owner (if owned by a corporation, its name and address must be stated and also immediately thereunder the names and addresses of stockholders owning or holding 1 percent or more of total stock. If not owned by a corporation, the names and addresses of the individual owners must be given. If owned by a partnership or other unincorporated firm, its name and address, as well as that of each individual must be given); none.

8. Known bondholders, mortgages, and other security holders owning or holding 1 percent or more of total amount of bonds, mortgages or other securities: none.

9. For optional completion by publishers mailing at the regular rates (Section 132, 121, Postal Service Manual). The purpose, function, and nonprofit status for Federal income tax purposes have not changed during preceding 12 months.

	Average no. copies each issue during preceding 12 mos.	Single issue nearest to filing date
A. Total no. copies printed (net press run)	12,175	12,500
B. Paid Circulation		
1. Sales through dealers and carriers, street vendors and counter sales		
2. Mail subscriptions		
C. Total paid circulation		
D. Free distribution including samples by mail, carrier or other means	12,064	12,427
E. Total distribution (Sum of C and D)	12,064	12,427
F. Office use, left-over, unaccounted, spoiled after printing	111	114
G. Total (Sum of E and F—should equal net press run shown in A)	12,175	12,500

I certify that the statements made by me above are correct and complete.

LOUISE S. ANDERSEN, (Acting) Business Manager.

Harriet Isherwood Power and Burt seek contact with anyone hunting for a retirement spot in Va. They sell real estate all over northern Va.—with "Century 21."

Cait Lewis Witt and Fred have an "empty nest" now that three of their children are married (son John last June) and 4th child shares an apartment with a friend.

Mary Lou Mercer Coburn and husband go twice a year to their home in St. Maarten, N.A. with its wonderful view of the Atlantic.

Alice Miller Tooker has been so busy with antiquing, gardening, bowling, golf, paddle tennis, and as chairman of the hospital Art Cart, that she hasn't had time to take a trip. She had a brief telephone chat with Lucy Austin Cutler when Lucy came north this year.

Elizabeth (Liz) Moon Woodhead's family is scattered far and wide but they joined forces in two cottages at "Sconset on Nantucket" during Aug.

Elizabeth Myer had a hectic winter in R.I. state librarian job but she and I keep hoping to get together for a lunch date some time to catch up on mutual progress.

Grace Nicoli McNiff and family had a reunion in Old Saybrook, Conn. last summer. Nikki and I missed each other on Columbus Day weekend when she was "retirement house hunting."

Felicia Olstyn Hober is retired, loves having time to spend with her daughter Joan's children. She spent May in Europe and plans a trip to England.

Jane Petrequin Hackenberg's husband, Aubrey, received the Masonic Order Honorary 33°. Jane teaches 1st grade at Hathaway Brown School. Summer highlight—a Gloucester, Mass., family reunion.

Martha Prendergast, working on her second master's degree (in human resources development at George Washington U.) plans to be a consultant to volunteer organizations after retirement from her Girl Scout directorship.

Edith Richman Stolzenburg, in her 9th year as high school social worker in Hartford, has completed her credits for a Ph.D. but "I am too lazy to do the research and writing for the thesis, and travel the world instead"—this year Yugoslavia, Greece, Turkey.

Marjorie Sorenson MacPherson, since her husband's death, has lived with her two eldest sisters who depend on her a great deal. She keeps in touch with **Ceda Zeisset Libutzke**.

Katharine Sprague Hodgson and Bob, both retired, enjoy being with their 4-year-old grandson. They had a trip to Nova Scotia in Aug.

Alice Taylor Gorham and Tom winter in Cocoa Beach, Fla. Since retiring they had a wonderful, six months travelling between Fla. and Calif., with time at their favorite Oak Point.

Helen Whieldon McConnell keeps busy with family, church and community affairs. Her husband retired from Penn-Central.

Emily Witz Charshee, the dedicated pianist, had a busy summer in Baltimore where she attended the master piano class at Peabody Inst. Gardening, teaching piano and trips with her husband fill spare moments.

Margaret Worthy Arnold produced over 74 lbs. of zucchini from a 39¢ seed package. Using organic magic, Peg harvested enough vegetables from her 30' by 38' plot to keep 3 families supplied all summer.

Miriam Young Bowman and husband vacationed in British Columbia and San Francisco. They are building an "escape house" in Flagstaff—for skiing in winter and cooling in summer.

Just as my classmates are retiring, I have unretired, back to teaching pediatrics, in Fall River, Mass. I confuse my friends by living in Conn. half the time, in Mass. the rest. My husband is retired, busy and happy.

Correspondent: Mrs. J. Arthur Wheeler (Ann Crocker), Box 454, Niantic, Conn. 06357

36 Joyce Cotter Kern took her vacation in June to watch the tennis matches at Wimbledon and visit Wales.

Arlene Goettler Stoughton's husband Robert retired in June after serving many years as an associate commissioner of education for the state of Conn. They took a 7-week trip to the Orient with 120 educators. Son David is in Los Angeles. They toured the Calif. coast, Ore. and Wash. before flying home; were busy this past fall going camping and enjoying retirement.

Margaret (Peg) Burgess Hoy and husband now divide time between Fla. and Mass. Their oldest son, married, lives in N.C.; youngest son attends law school at the U. of Toledo. On their way home to Swansea, Peg phoned **Virginia Bowen Wilcox** at Tallahassee who said she was spending the summer at their farm in N.H.

Miriam Everett Macurda visited in Portugal last summer. Her daughter Judith and husband have been in the Peace Corps. Her son, living in Dallas, has two boys.

Selma Leavitt Gerler's children are married and living in Calif. Selma teaches children with learning disabilities in Framingham, Mass.

Rhoda Mason Pettit is busy teaching piano and her husband, now retired, the organ. In Jan. they plan a trip to Mexico and Alaska.

Mabel Somers Kane has two daughters: one teaching in San Francisco, the other graduated in June from Salem State College as a social worker.

Elizabeth Vivian Ferry spends as much time as possible in Orleans on the Cape.

Elizabeth (Betsy) Beals Steyaert and Charles spent two weeks with **Shirley Durr Hammersten** at their cottage in Chatham, Mass. Betsy's son, married, lives in Savannah. Her daughter, married, has a son and lives in Me.

Lois Ryman Areson in Truro was visited by Shirley and Betsy. Ry's children are scattered but two daughters were with her. Ry does a lot of sailing out of Provincetown.

Janet Reinheimer Barton's oldest son is mar-

ried, has a son, and lives near by. Her son John is a senior at Bryant College. Last spring Shirley (Durr) and Ham visited Janet for a weekend.

Sheila (Shi) Caffrey Braucher had a 3rd grandchild last summer and **Josephine (Jody) Bygate Rolfe** a 4th.

Alys Griswold Haman spent the month of July cruising off the coast of Me.

Elizabeth Parsons Lehman in Aug. visited Gris and they had lunch with **Alice (Bunny) Dorman Webster**. In June Parse and her husband flew to Denmark, visited Copenhagen and cruised around Norway. On Oct. 2 they went to Denver where Charles was made a Fellow in the American Academy of Family Physicians.

Gertrude Mehling Partington and Philip had a Sept. vacation in England.

Gertrude Weyhe Dennis and her husband visited Greece and cruised along the coast of Turkey last summer.

Amy (Tex) McNutt McNeel and her husband celebrated their 30th wedding anniversary and took a 6-week cruise. Second granddaughter was born in July.

Alice (Bunny) Dorman Webster and her husband enjoyed a two-week cruise last summer.

Ruth Norton Kuhl had both her daughters and grandchildren home for a visit last summer.

Elizabeth (Betty) Davis Pierson's daughter Joyce is remarried and has a new son, Hugh Michael Donovan.

Correspondent: Mrs. Elmer Pierson (Betty Davis), 9 Riverview St., Essex, Conn. 06426

CONNECTICUT COLLEGE ALUMNI ASSOCIATION COMPARISON OF ESTIMATED AND ACTUAL EXPENDITURES

For The Fiscal Year Ended June 30, 1973

	Budget	Expended and Encumbered	Refunds	Expenditures (Over) or Under Budget

E. Leroy Knight
Treasurer and Business Manager

38 Muriel Beyea Crowell's book, "The Fine Art of Needlepoint", is due for publication in Oct. **Ruth (Poofie) Earle Brittan** helped her with the left-handed diagrams and is mentioned in the acknowledgements.

Anne Oppenheim Freed is director of professional services for the Family Service Ass'n. of Greater Boston. Anne formerly was the social service coordinator of the geriatric unit of the Mass. Mental Health Center. In addition she was project director of a nursing home education program financed by the Nat'l. Institute of Mental Health.

James and **Margaret Young Sullivan's** son, Jim Sullivan, graduated cum laude from Conn. College in June. He is the first son of a woman graduate to become a C.C. alumnus. Two other members of the Sullivan family received degrees: Richard from St. Michael's College in Winooski, Vt.; Rosemary from Newton College of the Sacred Heart. Peg has a won working in NYC and another a junior at Georgetown Dental, D.C.

Bob and **Bea Enequist Curd** moved into their new home in Southbury, Conn.

Sherry Clark Bryant's husband, Alan, was sent by his company to Sao Paulo, Brazil. That was 6 years ago; today he is director-superintendent (equivalent of president). For his "faith in Brazil, his integrity and concern for humanity," Alan was honored recently at a large luncheon in Cubitao. Sherry's days start at 6:30 a.m. Marketing takes forever and her house must always be clean, the silver polished and fresh flowers arranged for visitors. She does volunteer work and puts in hours planning money-raising events for the Sao Paulo Woman's Club and also in finding friends to "adopt" young boys at the Salvation Army Home. She runs all over town with reminders of the boys' birthdays; interviews people who are to offer courses for the S.P. Woman's Club; investigates orphanages for church benevolence; lunches once a week with her Portuguese teacher; takes her maids to be tested for all sorts of things; attends luncheons; plays some bridge; swims in their pool in summer (Nov. to Mar.); keeps letters going to their three children and relatives. She gives farewell parties until she could "weep." Everything is "production." She goes to one store for meat, another for chicken, another for fish and still

another for staples. Her community work helps her to adjust to an unfamiliar land.

M.C. Jenks Dolan's #2 son Arthur was married to Cindy Ross in Aug. aboard the S.S. Peter Stuyvesant, the old Hudson River Ferry boat now at Anthony's Pier 4 in Boston. Arthur teaches in Putnam Valley, N.Y.

Correspondent: Mrs. William B. Dolan (M.C. Jenks), 755 Great Plain Ave., Needham, Mass. 02192

40 MARRIED: **Barbara J. Goldberg** to Daniel I. Mandell. The Mandells live in West Hartford, Conn.

Beaulah Hoagland Marvin's granddaughter, Heather Crawford Pollock, was born Jan. 17 in Singapore. Mother is Judy Cosler Pollock '64.

Frances Kelley Bump moved back to Duxbury, Mass. from Ky. in Oct. '71. Husband has an office at home, working with acquisitions and mergers. Daughter Cindy lives in Los Angeles and has two children. Daughter Barbie is with the First Nat'l. City Bank in NYC. Son Morrison Jr. is at Boston Univ. Law School and son Larry a sophomore at N.C.

Frances Golden Thomas writes, "Arthur and I have enjoyed living in Orlando, Fla. for 20 years now. I'm still an interior decorator, caught in the middle of this Central Fla.-Disney World 'boom'. Last spring Kit and I had three delightful weeks in Italy, France and Spain."

Naomi Kissling Esser's married daughter Carolyn is living in Kansas. Son Dick lives in Colo., took his MBA at Denver. Naomi takes courses at Manhattanville for audit "to try to keep the old brain stimulated, and tennis... That's to stimulate the body."

Elizabeth (Libby) Barron Dingman was hostess to five classmates and husbands on Sept. 23 at her new home in Rindge, N.H.—

Katharine Potter Judson, Irene Willard Thorn, Elizabeth Thompson Dodge, Patricia Alvord French and Marjorie Willgoos Betts.

Jerry Willgoos Betts' son Peter was married in Oct. '72 and he and wife Debbie live on a farm in Albany, Vt.

Kay Potter Judson's daughter Karen and son-in-law Donald Yaggi live in Richmond, Vt. Both are elementary school teachers.

Irene Willard Thorn's son Willard is a student in electronics at Northeastern Univ. in Boston and son Bob a junior at Elmira College, majoring in art education.

Pat Alvord French's son Stephen received his master's degree in physics from the Univ. of Va. in May and now works in Springfield, Va.

For the class, I extend deepest sympathies to the families of two classmates. **Margaret (Peggy) Goldsmith Britton** died on June 12 of this year in Farmington, Conn. and **Naomi Ramsey Lewars** died on June 24 in Devon, Penna.

Our heartfelt sympathy also goes to **Gladys Bachman Forbes** on the death of her husband Charles on Mar. 29 and to **Alice Porter Downer** on the death of her daughter Laura Ann, 24, on Sept. 6.

Correspondent: Mrs. A. Douglas Dodge II (Elizabeth Thompson), 243 Clearfield Rd., Wethersfield, Conn. 06109

42 Cynthia Schofield Cleary and Bill, after 25 years, sold their summer home on Lake Huron. They valiantly erected five retaining walls in an effort to save their property from rising waters and erosion but finally gave up. Bill enjoys his early retirement and both keep active, spending their extra time travelling and enjoying their family. Bill Jr., recently married, is a CPA. Second son Mark is also an accountant. Patrick, next in line, works with the Wayne County Court as a "Friend of the Court". Daughter Marianne spent one college year in Rome and is now a junior at St. Mary's of Notre Dame. Mike 11, a 6th grader, keeps them most

active in all the things they did 10 years ago with the other four.

Aleynne Mathews Tanham and Frank began to study Central and South America when their 5th foster child came to them from Ecuador and became engrossed in the fascinating culture and history of the ancient Mayan civilization. In the past two years Frank has been in ill health and they now study about strokes and their causes. Frank received his 6th Pacemaker in Sept.

Patricia (Tish) Adams Hampson and Bud have lived in Calif. since 1965. Since Bud retired early from the Lockheed Missiles and Space Center, he has become involved in the investment management business. This past fall they spent a month visiting their old haunts in the east. Youngest child, Howard, is a junior at San Diego State Univ. Older daughter, Dona, teaches in Oakland and daughter Patty is married and has a son with whom Tish and Bud spend much time.

Dorothy Greene Greene devotes time to volunteer work as v.p. of the Torrington YMCA and chairman of its personnel committee; pres. of the Litchfield County C.C. Alumni Club where she works on 15th anniversary party plans; on the budget committee of the Community Chest and as a member of the Republican Town Committee and a candidate for the Board of Education. She is a member of the Appalachian Mountain Club, an enthusiastic hiker and speaks frequently on the subject of hiking. Doty's two oldest daughters are married. Her third, Kim, is a high school sophomore whose undefeated swim team won state recognition. The entire family gathered for a summer reunion at Martha's Vineyard.

Jane Guiney Pettengill had a mini-vacation at Cape Cod. Ann, graduated cum laude, with honors in her major, from C.C. in 1973 and now teaches. Her other daughter, Sara, entered her final semester at C.C. in the fall, planning to fulfill her requirements in 3½ years. She was married in Aug., an especially festive occasion since the groom's parents and grandparents were all married on the same date. Jane saw **Lydia Phippen Ogilby** briefly when Lydia brought her 3rd son to Hartford for his freshman year at Trinity College.

Mary Rita Powers, in each of the last two years, has presented a paper at the national meeting of the Acoustical Society of America. Every summer she manages to get away for an unusual three weeks' trip. One year she stood on the equator in Quito, Ecuador. Another year she was on a North Cape Scandinavian trip looking at the Midnight Sun. Last year it was Alaska, with a visit to an Eskimo village above the Arctic Circle. On this year's trip to colonial Mexico she felt quite ill but recovered in about a month's time thanks to an English-speaking doctor in Mexico city.

Jane Worley Peak and Paul live in New Orleans where he is chief of staff of the Coast Guard district. Before the move Jane had a trip to England and Ireland to meet daughter Marty, now a C.C. junior who had been on a Conn Chorus concert tour of the British Isles. Upon Jane's return she spent two months in Conn., as both her mother and father were seriously ill. Daughter Lucy graduated from Beloit College in Apr. '73 with a sociology major and son Roger finished his A.A. degree at Feather River College. His strong interest is herpetology and he is experimenting in taxidermy as a method of preserving snakes.

Thyrza Magnus Beall, our class president, spent several weeks last summer visiting family son Bill Jr. and his wife in Germany. While there she toured extensively but returned home in time to attend the Alumni meeting at C.C. in October.

The class extends its deepest sympathy to the husband and children of **Susan Schaap Gottlieb** whose death occurred in April '73.

Correspondent: Mrs. Arthur W. Chambers Jr. (Margaret Till), 7 Outlook Drive, Darien, Conn. 06820

44 Constance Geraghty Adams and Bill enjoy retirement in Walnut Creek, Calif. 4th child Matt graduated from high school this summer, leaving only Tina, a sophomore, at home.

Mary (Betsy) Richards Beemer, after a year in Alexandria, Va., moved back to Bradenton, Fla. where they are in the flower-raising industry.

Elizabeth (Libby) Shore Birdsell lived in San Miguel, Mex., during Aug. learning Spanish, shopping for food in the market and making new friends. Libby reports a visit with George and **Alice Carey Weller** in Quogue, L.I.

Elizabeth DeMerritt Cobb heard the Conn Chords in Martinsville, Va.; they sang for bed and board on their way to Fla. Daughter Sarah is an art student at Va. Commonwealth U. and Lisa is a freshman at Radford. Libby is busy settling in the house they built and teaching piano.

Eleanor Townsend Crowley's daughter Anne is a senior at Occidental College; Sue spent the summer at Hurricane Island with the Outward Bound program and is a freshman at the U. of Vermont.

Nancy (Rusty) Grosvenor English, travelled last spring in Granada, the preceding summer in Portugal. Daughter Anne is at Denison; son lives and works in Boston.

Susan Marquis Ewing reports a reunion in New York this summer at the wedding of **Jane Bridgewater Hewes'** daughter Nancy. One Ewing daughter and family live in Cleveland; the other daughter and spouse are in Ithaca.

Ethel Sproul Felts is in her 4th year as director of housing and dorm supervisor at Vashti School, Thomasville, Ga., (a Methodist school for girls with problems). Ethel's daughters are married to teachers and raising families in rural settings in Ind. and Ontario. Son Stephen is at the Ecumenical Inst. in Chicago.

Marjorie Geupel Murray's son Lee is doing his residency in Indianapolis where the Murrys live. Keith graduated from Miami of Ohio; now he will spend 4 years in the Navy. Drew is at home. Marge has a little purse business and teaches needlepoint, plays paddle tennis, tennis and golf.

Virginia Passavant Henderson's daughter Lisa lives in Palo Alto while her husband gets his Ph.D.; 2nd daughter works in NYC; Passey's son starts medical school at the U. of Calif. after hitchhiking across Africa; 3rd daughter had an interview at C.C.

Jean Loomis Hendrickson's son Chris is a Rhodes Scholar in economics and politics at Balliol College, Oxford. Last spring Jean traveled to the Holy Land. She is interested in biblical studies.

Jane Day Hooker had a picnic last fall for C.C. freshmen from the area around No. Branford, Conn. and counted more boys among them than girls. The Hookers have 8 children and two grandchildren. Jody saw **Stratton Nicolson McKillop** in Washington last spring.

Virginia Weber Marion is twice a grandmother and enjoying it. Ginny's youngest is in her senior year at the Univ. of Conn. She attended (along with **Sue Marquis Ewing**, Passey, Jeanne Estes Sweeney, **Frances Smith Minschall**, and **Susan Balderston Green**) Nancy Hewes' aforementioned wedding in NYC.

Dorothy Raymond Mead works part time at the Boy Scout office. One son is a CPA in NYC; another attends State U. of N.Y. at Cortland; a daughter is at State U. of N.Y. in Pittsburgh; the youngest son is in high school.

Louise LeFeber Norton in Franklin, Ind., writes, "It's not down on the farm but the corn looks good. Chuck's new bins bring our grain elevator capacity up to 1/2 million bushels of corn." Their son-in-law is in business with Chuck. Oldest son, a law student, married in June. Phoebe has a new job with a health-planning council facilities committee; she also serves on the Women's Commission for Nat'l Congregational Christian Churches.

Marie Romney Odell lives in Sonora, Calif. where Bob has the 49er Realty Co. Cookie's daughter Shelley married a rancher in Mar. Susan and Mary are in 7th and 8th grades. Cookie lost a 17-year-old son two years ago. Her family and Bob's 5 children by a former marriage, while not under the same roof, are "as one."

Norma Pike Taft's husband Nat is now Dr. Taft, J.D. from Harvard. After a deserved long vacation, he was made a v.p. of N.Y. Life Ins. Co. The vacation took the Tafts to Hawaii where they sampled the relaxed life style there. Norma is still recovering from gall bladder surgery last fall. The Tafts' son Steve is a jr. at C.C. Norma notes, "It's a change from the C.C. of yesteryear, but a good one." Chip is a jr. executive and audio-visual expert in the Personnel Dept. of Metropolitan Life.

Lois Webster Ricklin's son Don is with the Army in Berlin; daughter Leslie, having received her BFA in June, hopes to set up a wood-working shop in Phila. This year Lois joined Saul on business trips to Europe and Japan.

Ralph and **Betty Rabinowitz Sheffer**, with no children at home, moved to a smaller house by the river's edge in Westport, Conn.

Bob and **Muriel Jentz Schulz** vacationed all summer at their home in Groton, Conn. after Bob's retirement from the Coast Guard. Now they are remodelling their house which keeps them busy. Son David, out of the C.G. next spring, plans on attending grad school; Cathy works in Dayton, Ohio.

Betty Hyman Sokol's daughter Mollie graduated from C.C., a fine arts major with a solo senior art show. 2nd daughter Louise is at the U. of Conn. where Betty got her master's and then travelled extensively. After living in Fla., she has settled in New London and is a reading consultant in New London schools and on the boards of the YWCA and LWV.

Elizabeth Travis Sollenberger teaches young organists at Hartt College of Music and plays concerts around the Northeast. Dick is half way through med. school at Brown.

Lucretia Lincoln Stanley and George have changed their lives. George gave up his business and now does only occasional designs on commission, and they moved to Walker Pond in Sturbridge, Mass. where they feel as though they are on a perpetual vacation. They teach the Bible as Jehovah's Witnesses. Son Steve is married.

Helen Crawford Tracy learned to fly so she can back Bill up on vacation flights they take in their small plane. Helen does substitute teaching and teaches parenthood classes for the Adult Ed. program. Son Dave was voted "Teacher of the Year" at a Poway, Cal. jr. high school. He is married as is Peter who graduated from Sonoma College. John is at Brigham Young U. The Tracys are building a new home in So. Laguna, Calif.

Phyllis Cunningham Vogel, in spite of three broken bones in her foot, spent a weekend with Neil and **Elsie Abrahams Josephson** in Niantic where they had a mini-reunion with Libby and Gus Sollenberger and Lete and **Ruth Howe Hale**.

Mary Lewis Wang's sons Tim and Randy, attending high school at John Borroughs School, discovered their English teacher to be **Alice Adams Hilmer**. Mary's daughter Penny is at Swarthmore. Mary is editor at the St. Louis branch of McGraw-Hill.

Marion Kane Witter's husband recovered from miraculous open-heart surgery. Daughter Helen graduated from Skidmore in May and was married in June. Son George is in 7th grade. The Witters' travels include Bermuda, Aspen and Hilton Head, S.C. Killer works as a newspaper reporter.

Mary Melville Zildjian is being married to an Irishman, George Heron. They purchased Barrows Inn, an old established inn in Ossipee Center, N.H. and plan to run it in conjunction with Mary's antique business.

The Agnes Berkeley Leahy Alumnae Award

Now is the time for you to nominate Candidates for the Agnes Berkeley Leahy Alumnae Award. This honor is bestowed annually during Reunion Weekend to no more than three persons in recognition of outstanding and continuing service in class, club or other Alumni Association activities. Candidates must be members of a class which graduated at least fifteen years ago and may not be current members of the executive board of the Association or presently employed by the college.

The Award, established after her death in 1960, honors the memory and perpetuates the spirit of Agnes Leahy '21. Twice president of the Alumnae Association and a member of the Connecticut College Board of Trustees for ten years, she was a wise and devoted alumna who played a vital part in the development of the Alumnae Association and the growth of the college.

Your candidates should not be told that their names have been submitted.

Please mail nominations before February 15, to:

Ms. Sarah S. Buchstane '33
244 North Quaker Lane
W. Hartford, Ct. 06119

If you have any comments you wish to make, please send them on an attached sheet.

Co-correspondents: Mrs. Richard Vogel (Phyllis Cunningham), 230 E. 71st St., Apt. 4-B, New York, N.Y. 10021; Mrs. David Oberlin (Elinor Houston), 6401 Cavalier Corridor, Falls Church, Va. 22044

46 Elsie Williams Kehaya moved to Wilmington, N.C. but has a house at Wrightsville Beach nearby as her permanent address. Her winter town house is for her children's dearly loved grand piano and organ, and the few inclement winter weeks. Whit is at St. Andrews Presbyterian College; and Lisa at Mars Hill College (co-ed Baptist) in the Carolina mountains. After a few years of upheaval, Elsie feels she is once again settled and loving it.

Barbeur (Ditto) Grimes Wise enjoys the sunshine and golf in Palos Verdes Estates in Calif. and works as office manager for a local apt. builder. She is active in the LWV's effort to create a fourth CITY to slow down the tre-

mendous apt. house growth of the peninsula, and is taking a course thru UCLA in Helping People in Crises in hopes of returning to the counseling field. She talked with Rosemary Park, prof. of education, Graduate School of Education at UCLA. Ditto's daughter Cindy is a senior at PV High as is Brooks—excellent student and football player. Andy is at Cal. Poly, San Luis Obispo, while Scott is a graduating honor senior at U.C. Santa Barbara.

Barbara Caplan Somers enjoyed her trip to Mexico with alumni group led by June Macklin. "No one else from our class but a marvelous, interesting, friendly group. Recommend it highly." She still tutors youngsters with learning disabilities, takes courses, and "enjoys the challenge of it all."

Joyce Hill Moore breathes a sigh of relief as Jody graduated from Endicott and Dinty from Rider. No more tuitions! Dinty is production control trainee while Jody is assistant manager to Robert Varga (Fashions, Inc.).

Muriel Evans Shaw and husband were ill (o.k. now), husband took early retirement; #1 son started medical school U. of Vt.; #2 son graduated U.N.H.; Martha is soph at U. of Colo.; 3rd son John is in high school. Muriel attended summer school in curriculum planning for adult ed., teaches ABE several a.m.'s per week, and does volunteer work for library and United Fund.

Jeanne Lowe Nixon reports that Bob graduated from Lehigh and married. Dave was appointed by Sec. of State of W. Va. to chief of elections (office across the hall from the governor's). Charlie is chairman of the Republican party in Carnegie. They "spent the summer on the golf course."

Gloria Frost Hecker praises life in Fla. after 23 years at *Life* magazine. Art is now a marketing and promotion exec. v.p. Oldest daughter Valerie married in May; second daughter attends Mesa College in Colo.; Leslie, at Trinity Prep School had 5 weeks in Europe with the American Leadership Studies group; Susan is a freshman at Trinity. Glo is raising funds for the Edgewood Boys Ranch and bridging, golfing, tennis. She went to Egypt and Holy Land.

Priscilla Garland Westberg's daughter Diana Dente is married and senior at Lesley College, Cambridge, Peter Dente is finishing at Colo. U., and Susan Dente is sophomore at U. of Wisc. After a return to Jamaica to renew memories, Polly and her husband sold the enormous house and found a home in Basking Ridge.

Joan Ireland Adams moved from Fayetteville, N.Y. to Lake Forest, Ill. where Bob is v.p. in Chicago. She will miss **June Hawthorne Sadowski** who lives on the lake in Skaneateles, N.Y.

Ruth Goodhue Voorhees crossed the U.S.A. in van with "73-year-old sculptress friend plus horse and dog—bronze." Daughter Wendy is in nursing at U. of Nev.; Pam and Chris working and living in Colo. mountains.

Joanne Ferry Gates' daughters Pam and Cindy are both married. Sue, at Trinity, is first female master carillonneur there. Becky, a blooming 7th grader, is still around. They have made over a N.H. barn for ski weekends.

Marilyn (Skip) Coughlin Rudolph writes of a dramatic wedding, "sans dress, bridesmaids, ushers, tent, orchestra etc.," because of the disastrous Wilkes Barre flood. Luckily Cathy, just graduated from Conn. and the groom, who managed to work his way up via washed out bridges and back roads from Philadelphia, made it. Skip is kind of lonely but works in library. They are all struggling to recover from the flood.

Mary-Naim Hayssen Hartman stopped by with daughter Mindy on a college tour a while ago.

Evelyn Isler Schwartzman's Gil operates a herring fleet out of Reykjavik, Iceland. They purchased a caribou farm, 200 miles north and export meat to European countries. Sons Bernie and Phil operate a snowshoe factory locally. This will be their first winter in Iceland.

Lucy Block Heumann is studying sculpture and recently took a "short trip to N.C. to pan for gems." John is finishing his Ph.D. at Boulder; Katie is senior at U. of Ky.; and Billy 17, is interested in oceanography.

Sally Duffield Wilder had a really different trip to Europe. Her museum director husband was asked by the State Dept. to organize a painting show for East Europe. "We visited six countries to case museums and meet officials. The paintings depict the 'westerling' movement across our country and the show opens in Warsaw Jan. 8. It will tour East Europe for a year."

Frances Farnam (Gifford) Johnson recently remarried, sends news of a miraculous survival after three months of being on the brink. Her warm wishes are extended to all our class. Fran worked as admin. ass't. and sec'y. at the U. in La Jolla, Calif. and had nearly finished her graduate work for a degree in human behavior when illness struck. Bud, her patient, thoughtful husband, helped so much.

Marguerite Butler Rood and Henry visited

with Johnsons in Vt. when Fran came east for a family reunion.

Nancy Armstrong Wood and Dick, plus their two children, stopped to visit the Johnsons in the summer of '72.

Jessie MacFayden Olcott, our class president, says the entire family had a most fun time in Bermuda last June. Daughter, Lois, Conn. '71, finished her course at Wintertur and is now in Ky.; Jesse is finishing in physical therapy at Bronx Municipal Medical Center; Alec (working) and Sue, in 9th grade, are at home. Jess is chairwoman of Thrift Shop at Albany Medical Center Hospital.

Your correspondent, **Janet Cruikshank McCawley**, after threatening to enter the real estate field has happily returned to teaching English at Greens Farms Academy. The last daughter home is at Katie Gibbs while her twin continues creating at Calif. College of Arts and Crafts.

Constance Hopkins Hyslop has rescued a baby (abandoned by her mother at age 3 days) at the clinic in Tijuana, Mexico, where Connie does volunteer work. "A sweet, utterly beautiful, bright child, a joy to all who know her." They plan to adopt Nina if no one claims her in one year. Their "grown children were astounded to discover the old folks 'doing their own thing.' May they learn for themselves that life has a way of unfolding unexpectedly if one is flexible. We shall suffer much if we have to give up this child; meantime she is thriving on the TLC so essential to growth of body and spirit."

The class of '46 wishes to extend its heartfelt sympathies to the family of **Carol A. Herzfeld** who died 11/29/72.

Correspondent: **Mrs. Edmund S. McCawley (Janet Cruikshank)**, 4075 Redding Road, Fairfield, Conn. 06430

50 MARRIED: Edith Kolodny Mitchell to Stan Block 9/3/72; **Joann Stephens Morrill** to Neil A. McKay Jr. 7/14/73.

Edie Kolodny Block, "after years of problems, trouble and illness" found 1972 "a blessed relief." She worked as community coordinator for the Planned Parenthood Ass'n and was accepted for the Graduate School of Social Service Administration of Ariz. State Univ. But a week after school began, she married Stan. He is director of documentaries for the Phoenix ABC-TV station; they met when he was doing a film on her Planned Parenthood agency. Now she often accompanies him on location while he is filming, spent last June on the Hopi and Navajo reservations in Ariz. Her children Eve, Matthew and Jason, "really delightful teenagers" adore Stan.

Joann Stephens McKay was also living in Phoenix at the time of her marriage but now she and Neil live in Fort Wayne, Ind., his home town. He is a graduate of Wabash College and works for Food Marketing Corp., a division of Super-Value Stores. Joann's two sons, Stephen and Andrew live with them. Daughter Robin is a junior at Ariz. State in Tempe, in pre-occupational therapy.

Eleanor Wood Flavell, confirmed Minneapolitan, works on a research project, testing 1—3-year olds, also tutoring in public schools. She set up a darkroom in the basement. Husband John is "very content" at the Inst. of Child Development, Univ. of Minn.

Carol Dowd Redden reports all six children 7—20 in school. Oldest daughter Deirdre is a junior at Trinity in Hartford, next son a sophomore at Cornell Engineering. Their small house in Vt. helps them get away from it all. They recently moved into a rambling old house on the beach at Branford, Conn.

Geraldine Foote Dolliver's daughter Wendy C.C. '73 was married in Harkness Chapel June 30 to Brian Wynn, Yale '73. The young couple lives in Toronto; he is in law school, she in the management training program of the Toronto Dominion Bank. Daughter Gail is in 3rd year of medical technology at Quinnipiac. #3 daughter

Kay entered C.C. in Sept. (living in Freeman where Gerry spent her last two years). #4 daughter Janet is a junior in high school. Gerry and Dick traveled to Bavaria and Switzerland last summer. Retired from the Coast Guard, he is an assistant prof. at Greater Hartford Community College while working on his doctorate at Univ. of Conn.

Caroline Crane Stevenson's sons Rob and Jeff graduated from prep schools last June—different schools, same day, different states. Rob entered Univ. of Iowa. In the summer he was one of ten accepted at the Writers' Workshop there and liked it so well he stayed on to study under John Cheever. Jeff was not settled when Carol wrote. Third teen, Lynn, is in high school. Together they make the Stevenson house "the teen center of the midwest." In Sept. Carol started her "12th year at the same desk in the same room at the same school. Fortunately the courses are different."

Diana Hawkey Hawkins and Tom are in their 5th year in San Antonio. He is assistant director of the Dept. of Social and Management Sciences at Southwest Research Inst. Dee was pres. of the Staff Wives Club last year. Tom Jr. finished high school brilliantly, worked for an engineering firm in the summer, then entered Southern Methodist Univ. School of Technology. Steven, a 7th grade boy scout is an outstanding cornetist, and accomplished water skier.

Shirley Hossack Van Winkle moved her gang to Roxbury after 10 years in Weston, Conn. Tom no longer has to commute to NYC. David is a senior in high school and into the college hunt; Susan, a freshman in high school, got her own pony last fall; Tommy is an athlete in 5th grade. Shirley does volunteer and sometimes paid work at their schools and elsewhere.

Susan Little Adamson and family spent a marvelous summer visiting Holland, France and the British Isles. In England they rented a boat and spent two weeks on the Thames. Daughter Margaret celebrated her 16th birthday at a medieval banquet at Bunratty Castle and son Ned his 15th at Ashford Castle.

Jean McClure Blanning sends news from New Haven, Conn. about a talented student, Carmen Brown, who was accepted as a freshman on campus. "I was proud of her and proud of my alma mater for recognizing her and seeking her out. It is fun having former students on the campus (3 now!)."

Charlene Hodges Byrd and Charles were featured in The Charleston Gazette for their efforts in building better educational opportunities for county and state school children in W. Va. Dr. Byrd is coordinator of educational programs dissemination for the State Dept. of Education. Charlene, as head of the dept. of instructional services for Kanawha County Schools, is head of curriculum and instruction, coordinating the work of subject matter consultants and organizing professional in-service programs. She is director of the federally-funded learning disability project, attempting to give the typical classroom teacher the expertise of a clinician in helping the student with learning disabilities. For a hobby, Charlene collects cookbooks and has become an antique buff. She has catalogued three generations worth of family heirlooms. The Byrds are active members of many organizations. Occasionally Charlene visits Mary Lou Oellers Rubenstein who also lives in Charleston.

Elizabeth Steane Curl and Joe polished up their college French and managed very well during a two-week spring tour of the French provinces. Although Beth has "not yet written The Great American Novel," she gives weekly lectures on art at the Toledo Museum of Art and volunteers time for United Appeals and Toledo Hospital Board. Son Steve is a junior at Denison Univ., interested in law; Tom, a senior at Sylvania High and the Curls are busy again with college catalogues; daughter Mary is a high

school sophomore; son Jody a 4th grader.

Lois Papa Dudley was fund-raising co-chairman with Betty Leslie Hahn '49 this past year for the Conn. College Club of New Haven. Husband Marshall and Lois took their annual spring trip to Bermuda which "never pales". The Dudleys visited R.I. this summer for their "family fun and surf vacation, complete with cat and dog." There they met **Terry Munger** and "gabbled about how close the big 25th seems."

Barbara Cook Gerner writes from Pittsford, N.Y. that she and Phil made a spring visit to Switzerland, Austria and Germany. Son Phil entered college in Sept.; daughters Patti and Pam were active participants in their school play productions.

For **Marilyn Packard Ham** life "seems to be one big 'trip'." With husband Clifford, she led a nat'l Sierra Club trip in W. Va. mountains for ecological enlightenment. Next was a 4-week hostel cycling trip in Scotland. The Hams also visited New England and in the fall went to Ann Arbor, Mich. to visit their oldest son, a university student. Packie looks forward to "two more years and we'll 'trip' to our 25th!"

Mary Jo Mason Harris expects to spend much of this year finalizing college plans for son Ed, a high school senior. Rick is in 8th grade. Both boys are active in band and Boy Scouts. Husband Bob also has scouting interests, while Mary Jo volunteers in the high school and is on the Homemaker Service Board.

Nancy Parliament Hawkes runs an active family life in Deerfield, Ill. and devotes time to church work. Husband Albert is a self-employed management consultant. Daughter Grace is a sophomore at Allegheny College; son John a junior at Deerfield High; daughter Emily, after filling her Scout sash showing 7 years of awards, "gives up Scouting for the joys of his school."

Joanne Shenk Leeds continues her work for a catalyst, non-profit organization devoted to pursuing careers for women. Daughter Gail is a junior at Univ. of Rochester; Karen a senior in high school.

Margaret Duffy Keller and family moved to a farm "smack on Chesapeake Bay" where they "enjoy the whistling swans, ducks and geese that raft at our shore, the fish, crabs and oysters that live in the water." Husband Robert is in the landscape nursery business while Margaret satisfies her green thumb with two greenhouses. Daughter Eugenie, a botany major at Ohio Wesleyan, has grad school ambitions. Son Walter is a sophomore at New England College; son James a high school senior. Margaret remodeled their small brick house (c. 1800) and has renovation plans for a larger house on the Bay for family use. She volunteers in Easton for hospital and mental health work.

Frances Lee Osborne in Alamo, Calif. is county service chairman for the American Cancer Society and speaks to organizations about free services available through ACS. A winter visit to her brother and sister-in-law, **Barbara Mehls Lee**, brought Fran to Cheshire, Conn. Children 16, 14 and 11 join in the family pastime of winemaking each year. The Osbornes have their own small vineyard (75 vines) of Johannesburg Reisling grapes.

Adrienne Najarian Rabkin continues part-time family counseling casework at the Family Service Ass'n of Greater Boston while husband Mitch is involved with medical care and education at the Beth Israel Hospital and Harvard Med. School. Children Julia and David are students at Milton Academy. The Rabkins have a 19' sailboat in which they dart about Boston Harbor "terror in my gut as I take over the tiller." The Rabkins sometimes visit **Rhoda Freed Mann** and **Jeanne Wolf Yozell**.

Mary Lou Oellers Rubenstein continues to enjoy her work with the Dept. of Welfare, licensing Day Care Centers. She is board chairman of 8 non-profit centers which this year have

3 full time social work students to help. Mary Lou also teaches a graduate course, "Human Behavior and the Social Environment." Daughter Nanci entered the Chinese linguistic program at Georgetown Univ.; Matthew and Ellen are "delightful individuals." All five Rubensteins spent three weeks this past year in London, Paris and Rome.

Janet Pinney Shea and family returned to the States after two years in So. America. Although husband Jim continues to travel extensively, Jan stays in Washington, D.C. to manage home and children. Both sons (jr. high and 5th grade) are active in soccer; daughter Jenny (jr. high) studies violin. The Sheas enjoyed spending Aug. in N.H. where they were busy adding on to their secluded cabin which has "no water and no electricity...but a magnificent view."

Elizabeth Smith Shores in Scarsdale, N.Y. wonders "why so many of my classmates have amassed so many degrees and honors while I remain at home worn out by husband Larry who is chairman of languages at Scarsdale High, son Ritchie and daughters Wendy and Debbie."

Sylvia Snitkin Kreiger's daughter Beth and **Anita Manasevit Perlman's** daughter Lissa entered the freshman class on campus.

The class extends sympathy to **Manette Moody Dayton** on the death of her husband Fred in February.

Co-correspondents: Ruth L. Kaplan, 82 Halcyon Road, Newton Center, Mass. 02159; Mrs. David Kreiger (Sylvia Snitkin), 16 Beechwood Road, Woodbridge, Conn. 06525

52 Helen Fricke Mathieson missed reunion because she was in Europe, her first visit abroad since 1952.

Alice Goldberger Siegel teaches art at Housatonic Community College and in the Darien, Conn. public school system.

Jane Murchison Hamilton has only 2 of her 4 children at home now. One son works on a drilling rig in the North Sea off Scotland and her daughter attends art school in Boston. Jane is busy as co-owner of a decorating shop.

Margaret Ohl Grace and family left Tulsa for Tonkawa, Okla., where Virgil is pastor of the First Presbyterian Church. Karen is in 2nd grade and Keith still at home.

Nancy Reeve Blank is in her 5th year as a nursery school teacher, the last 2 doubling as director. Cathy is a senior at Chatham High School.

Mary Ann Rossi Brackenridge and family are living in London for two years while Bruce studies at Imperial College. Lynn is studying German in Germany and Scot, Sandy and Rob attend grammar school in London. Mary Ann hopes to continue her writing on the women's movement.

Shirley Sly Kreidler vacationed in N.H. where floods forced her to move four times in two weeks. She visits local high schools as an admissions aide for C.C. and in Aug. hosted a luncheon for incoming Conn. freshmen.

Patricia (Pat) Updike Sormani spent the summer at the N.J. shore and in Aug. took a trip to Switzerland with her family.

Alida van Bronkhorst Knox's family life will change this year. Jack is taking his first sabbatical to author a book on the philosophy of perception. Trevor attends Nancy Reeve Blank's nursery school while Amethy has library story hours and joins Trevor in Sunday School classes.

Jean Wesseler Boyer gave up teaching to concentrate on home activities. Bill had a paper published in *Ecology*. Kitty studies art at Auburn and the other three girls are still in public schools.

Jane Wilson Shackford is on leave from the C.C. library to complete graduate study at the Univ. of R.I. Charles' "Quintet in E Flat" was first performed at C.C. in Apr. and a recording will be broadcast during the coming months.

Beverly Bower Shadok lives in So. Calif. where Ed owns an expanding chain of radio stations. Leigh and Ned are tennis buffs, Ned having won several San Diego tournaments. Suzie transferred to Occidental College in L.A.

Barbara Gueinzus Gridley is audio-visual head at St. Bernard's School and teaches 2nd grade daily in addition to attending graduate school at night. Sis sees **Joan Katz Easton** now and then, as Joan teaches at Trinity School in N.Y.

Sara Klein Klein is still in the English Dept. at Trumbull H.S. Husband Andy enjoys his new position with Prudential Ins. Co. Gwen graduated from Barnard; Andy is in his senior year at RPI; Susan is a freshman at Hofstra Univ.

Jerilyn Wright Hole combines a job in advertising photography with a busy family life. She visited Jack and **Joan Hamilton Lohnes** last spring and had a marvelous time reminiscing about college days. Sons "J" and Morgan are active in ski racing. Daughter Malli counselled at a camp for deaf children last summer. Jerry is a board member of a county organization aimed at helping deaf youth.

Elizabeth (Sue) Rockwell Cesare loves her job as headmistress of a girls' school coordinated with a boys' school. She moved to a new home ideally located within walking distance of the beach, tennis and sailing.

Florence Porter Loomis was East in June for Howard's graduation from the Stonier Graduate School of Banking at Rutgers where she saw **Jeanne Chappell Metzger**. During the summer Art, now a Trinity College (Texas) freshman, was in Russia, Ted haying in Okla., Bud on a scouting camp staff, and Porter on a Little League team. They spent some time at their cottage on Lake Michigan and played family tennis.

Norma Neri Goralski teaches 5th grade in Avon, Conn. for the 10th year. As Bill teaches history at Simsbury High, their vacations coincide. They spent their summer fixing up their beach cottage in Clinton.

Ann Foster Lombardi is a popular hostess and gourmet cook in Kansas City. She, Neil and their three sons all participate in family culinary endeavors.

Correspondent: Mrs. Christopher J. O'Connell Jr. (Beverly Quinn), 3010 Evergreen Way, Ellicott City, Md. 21043

54 Mildred (M'Lee) Catledge Sampson visited **Gretchen Taylor Kingman** and **Phil** in N.H. and **Lois Keating Learned** and **Les** in L.I. M'Lee's oldest daughter is in college and youngest in kindergarten, with two between.

Gretchen and Phil are moving back to Mass. They have 5 children in varying degrees of scouting and sports. Gretchen was president of the Manchester (N.H.) AAUW. She hears from **Kathryn White Skinner** who has her M.A. in social work and works full time. The Kingman boys go to camp with **Janet Rowe Dugan's** boys, the brother camp of the one Gretchen and Jan used to attend.

Lois Keating Learned reports a quiet summer on 10-speed bikes and work on our coming reunion.

Carol Connor Ferris and family vacationed in Wellfleet, Cape Cod, again. She is active in Ohio with LWV, tennis and their horse, "Gadabout."

Nancy Evans Guthrie watched her 15-year-old water ski on TV as a "dub-in" for Mike Syderhand, world champion, who couldn't make the filming. She is taking her four boys to western Australia for a year, planning to return through Europe to New London and reunion.

Marcia Bernstein Siegel just published "At the Vanishing Point: a Critic Looks at Dance" to beautiful reviews. "Village Voice": "The most important dance book in nearly 20 years." Marcia ran a three-week session at Mills

College this summer; teaches a movement class in N.Y. at Dance Theater Workshop; writes for Boston Globe, L.A. Times, Hudson Review; lectures; holds seminars.

Carol Bernstein Horowitz is the Mass. Pres. of the Retinitis Pigmentosa Foundation and works for the city of Boston Parks Dept. in tree planting. Two of their 4 girls are at college.

Catherine Pappas McNamara came to a fashion show at Alexander's for Community Service Society of N.Y., hostessed by **Margaret King Moore** and **Ann Marcuse Raymond**.

Margaret King Moore and Tom bought the house they rented and loved for summers in Point-O'-Woods, Fire Island. Willard has just begun Exeter while Elizabeth and Charlie are still in school in NYC.

The **Raymonds (Ann Marcuse)** found snow in Ariz. at the end of March at a ranch on the Mexican border. The horse-mad Raymond girls went to riding camp this summer, which really cemented their enthusiasms.

Correspondent: Mrs. Robert Raymond (Ann Marcuse), 39 East 79th St., New York, N.Y. 10021

Naomi Blickstein Pollack is studying part time for her master's in social work and working for the Vocational Rehabilitation Commission. Naomi is an admissions aide for Conn. College in Bergen County, N.J.

Elise Hofheimer Wright returned to her first love, teaching music to children. Elise is a trustee of the Valentine Museum in Richmond.

Joyce Robin Borden, working full time as a potter, also taught ceramics in summer school at Moore College of Art. Joyce's husband David teaches shop to children 3—13 at the Rose Valley School in Media, Penn.

Justine West Cook and family returned to Plymouth, Mass. for the summer. Since her fairly recent move to Va., Justine started a small antique business.

Harv and **Irma Levine Alperin** spent the summer in Israel with their children and her parents. They had a very exciting five-day tour of the Sinai Desert in a large open-sided truck.

Amelia Noyes Baughman enjoys having Ann Crow '57 as a neighbor in Etna, N.H. Amelia has a part time job as a decorating consultant for a local shop.

Bill and **Joan Winchester Maddox** and their three children live in Sarasota, Fla. where Joan is active in the Jr. League, Republican party and the Ringling Museum. As Bill flies his own plane the family has had western ski trips and island vacations.

The class sends sympathy to the family of **Marian Jean Pentz Leonard** who died recently.

Correspondent: Mrs. Allison C. Collard (Julia Conner), 15 Central Drive, Plandome, N.Y. 11030

Joanne Karnow Manheimer teaches nursery school and studies at the Bank St. School of Education for her master's. Joanne and Bill built a summer house in Me. for family vacations.

Shaun and **Millicent Kavanagh Ruddy** are off to Japan where Shaun will give a paper at the International Congress of Rheumatology in Kyoto. Millicent is president of the Robert Brigham Hospital Auxiliary.

Judith (Judy) Gregory Bowes and family enjoy their new home in Cincinnati where David writes for the Cincinnati Post. Daughter Virginia recently visited Heidi Schweizer Ely in Alaska.

Judith Missel Sandler keeps busy teaching needlepoint and interior decorating. She recently had a party for 30 Conn. College Mass. freshmen.

Ann (Bonye) Fisher Norton and family are moving into a big old house and expect to be hard at work redoing it. Bonye is on the adult church education committee and on the executive committee for clergy wives for the Diocese of Maryland.

Marcia Mills Ambrose's husband Homer retired from the Army two years ago and they have bought a new home in the northern Va. area.

Angela Arcudi McKelvey teaches French at Weston High School. She took more French courses at summer school and then she, husband Lee, and their three children went to Quebec City.

Jacquelyn Rose Bailey received her master's in guidance last May from Springfield College. She was awarded a teaching fellowship and this year is earning a certificate of advanced study. Daughter Lise enrolled this year in the Conn. College kindergarten.

Margaret Zellers Lenci is a travel journalist and writes for the N.Y. Times and Travel Magazine. She recently spent time in Switzerland and is writing articles on exploring Switzerland by train and bus. Twice a year Margee edits the N.Y. Times Caribbean section. She is also a consultant for an advertising firm in Mexico.

56 BORN: to Homer and **Marcia Mills Ambrose** John Mills 2/19.

58 BORN: to Jim and Jean Cook Brown Bettina Ann 4/28.

Philippa Iorio Bilotti is busy in Morristown

with school and volunteer work. Her son is a 6th grader this year.

Dick and **Sylvia Fesjian Sarkisian**, having moved to Bronxville, are busy renovating their new house. Leila is in 6th grade and Bruce in 1st.

Carol Fuhrer Berger's five boys are in school all day and Carol is going to Pitt's Graduate School of Social Work. She is V. Pres. of her local mental health ass'n.

Karen Levenson Lengyel lived in Paris 14 years. Daughter Ariane is 9½. Karen works as TEFL teacher, has traveled extensively, including two round-the-world trips.

Bruce and **Kathryn Gregory Hoare** and children traveled to the West Coast this summer, visiting Disneyland, San Francisco, Ore. and Seattle. With her youngest, Douglas, in nursery school this fall, Kathy looks forward to golf and tennis. Kathy is treasurer of the Welcome Wagon bowling group.

Arline Hinkson Pierre Saison and her children spent the summer in France with Georges joining them in Aug. Petit Georges understands French better than English and Tonia is almost bilingual. Arline is working with American Field Service, this year sending students to South America.

Susan (Sue) Carvalho Efinger moved from Oakland, Calif. to Old Saybrook.

Jean Cattanach Sziklas and family spent Aug. vacationing at Pocono Lake Preserve where her boys became proficient swimmers and fishermen. "The 42 trout and a 17" large mouth bass helped combat rising food prices!"

Elizabeth (Beth) Biery Neidel is involved with an "Art Goes to School" project for the Harrisburg Jr. League and is a member of the Chestnut Hill Women's Committee for the Philadelphia Orchestra. Her children are Betsy, Lynnie and David.

Cassandra Clark Westerman summered at Cape Cod and spent a weekend in Boston with **Gail Sumner** seeing the good old Red Sox play. Cassie, our 15th reunion chairman, thought "Suzanne (Suzie) Ecker Waxenberg's 'Monologue of Remembrance' at reunion super—those who weren't there really missed something."

Gretchen Diefendorf Smith visited Duxbury, Mass. briefly during the summer.

Bob and **Alma Cangiano Cooke** and three boys spent the summer growing their own vegetables organically. In the fall Alma will be a director of a large nursery school in Redding, Conn.

Susan Borkow Ulin spent Aug. at Cape Cod. Susan is president of the PTA at Trinity School and does volunteer work at a settlement house in NYC.

M.J. Driggs Pacholczyk had an interesting sabbatical year in Sussex, England, and Bologna, Italy, while Andrzej worked in astronomy. They have a new house and enjoy the riding and hiking in Tucson.

Bob and **Barbara Bearce Tuneski** love being back in New England. Bob is Ass't Commandant of Cadets at C.G.A.

 **Nancy Dorian** is tenured as associate prof. at Bryn Mawr. Nancy's long years of fieldwork in the Scottish Highlands resulted in a major article printed June '73 and 7/8 of a manuscript of a book under consideration with a publisher in Ireland. "The most fun in recent years teaching has been developing an interdepartmental course called 'Introduction to Celtic Civilization'... It's probably the only one of its kind in American undergraduate education." Nancy saw M.J. Driggs Pacholczyk in Conn. in July.

Judith (Judy) Johnson VanderVeer spent 2½ weeks cruising on their new 30' Bristol, sailing to Nantucket and Martha's Vineyard. With Pam in 2nd grade and Ritt in Kindergarten, Judy is busy volunteering in her children's classrooms, teaching nursery school and working for her master's degree at Wheelock.

Ann McCoy Morrison saw Doug and **Betty Lou Dunn Sanderson** at Groton Long Point. The

Sandersons had a busy spring with major renovations on their Williamsburg style house. Ann spent the summer at their Center Ossipee, N.H. home which they have partially winterized in anticipation of vacations skiing and ice skating. Ann is treasurer of C.C. Club of Boston and enjoys her volunteer work with abused children at a Boston day care center.

Co-correspondents: **Mrs. Gerritt VanderVeer Jr. (Judith Johnson)**, King John Drive, Boxford, Mass. 01921; **Mrs. William Morrison (Ann McCoy)**, 60 Hurd Rd., Belmont, Mass. 02178

62 MARRIED: Pamela Blume to Clive Anthony McAllister 10/14. BORN: to Arthur and **Rosalind Grattan Von Au** Suzanne Eleanor 5/1; to Douglas and **Ellen Forbes Bingham** Donald Cameron 6/30; to Bruce and **Dorothy Strifert Tilton** Laurie Ann 4/5; to Walter and **Beth Maggin Yoser** Elizabeth Hope 3/7.

ADOPTED by Ken and **Betsy Aikin Bemis** Laurie Catherine 12/72 (born 11/72).

Anne MacMichael Ilson, married in 1962 to Howard, a submarine sonar physicist, lives in New London with their two children. They recently returned from a trip to Norway.

Gwendolyn (Wendy) Rendall Cross is president of the Chicago C.C. Club where there is a new scholarship fund raising project, a needlepoint kit of the College seal designed by **Mary Willy Falconer** helped by **Camilla Boitel Burgess**, **Nancy Blake Paul** and **Constance (Connie) Kaufman Dickinson**. Wendy and George took their four children for a 2-week summer driving tour of the Rockies and Yellowstone.

Judith Basewitz Theran, after several years of exciting work with the United Nations Children's Fund as an administrative assistant handling international staff abroad, is now at home with 15 mo. old Elizabeth. Mark is a partner with Bear Stearns and enjoys his financial projects in the Wall St. realm.

Barbara MacMaster Wolff's two daughters are in school. She stays busy with community projects: as chairman of the Thrift Shop, on PTA Board, being a classroom mother, volunteer library worker, with tennis and golf for exercise. Charlie is a broker with Auerbach, Pollak and Richardson in NYC.

Ellen Forbes Bingham and Douglas enjoy Edmonton, Alberta, at the University.

Marion (Duffy) Stafford Robinson and Bill visited Cape Cod this summer with their girls and saw Ron and **Janet Wright Evans** on their way home. Duffy teaches ceramics at a local art center and started private lessons as well.

Dale Pollock Cozadd and family are back in Corning, N.Y. where she helps set up a volunteer aide program for the local school, and still plays lots of tennis.

Jacqueline (Jacque) Goodspeed Buehler is director of development at Wheelock College. After the summer's heat she looks forward to ski weekends with her husband and his two daughters. Jacque saw **Sarah Worthington Greening** at a camp they shared and which their daughters now attend.

Dorothy Strifert Tilton is a licensed medical technologist in Calif. She and Bruce recently moved to a new home in Duarte.

Betsy Aikin Bemis and family are "crazy about" their new adopted daughter.

Beth Maggin Yoser's older girls are in school. Beth is busy with PTA, the Primary Learning Center and curriculum committees. She is a board member of the C.C. Club of Nassau-Suffolk Co. Walt is a buyer for Corvette Stores across the country.

Prudence (Prudy) Roberts Kidd and family are settled in a new house just outside D.C. They vacation at Kill Devil Hills on N.C.'s Outer Banks every summer.

Barbara Gristede Whipple teaches at a school for mentally retarded children and at Sunday School. Tom is an engineer at Con Edison. They

have three children.

Marcia Brazina Littenberg, physicist husband Laurie and 2-year-old Jeffrey live on a farm in Cheshire County, England. Marcia teaches American literature part time at a local college of education.

Phyllis (Debbie) Brown Pillorge, George (a partner with RTWL, architects and urban designers) and their three children enjoy cruising and racing their 33' sloop in Chesapeake Bay. Debbie takes courses in navigation and classical guitar and also plays oboe in a chamber music ensemble.

Pamela Blume McAllister recently resigned as executive assistant to the president of Textile Industries in NYC. Married in Calif., she and Clive (of Salisbury, Rhodesia) will live in Johannesburg, So. Africa.

 **Elizabeth (Beth) Haines Nash** received her Ph.D. in botany from Rutgers Univ. in June.

The class extends its deep sympathy to Jim Haynes and the Wellers on the death of **Jane Weller Haynes** 8/73.

Correspondent: **Mrs. Harrison R. Morse (Judith B. Karr)**, 154 Norfolk St., Holliston, Mass. 01746

66 BORN: to Larry and **Alice Karmel Juda** Emily Rachel 3/20.

Alice Karmel Juda has been substitute teaching in French and hopes to work part time in the fall. Husband Larry received his Ph.D. from Columbia Univ. and teaches international law and organization at Muhlenberg College.

 **Elizabeth Hardin Horowitz** graduated cum laude from the Univ. of Penn. Law School in June. She and her family: Jay, Alexandra 4 and Damon 2, moved to the D.C. area.

Wilma Cohen Probst, still in D.C., is assistant director, Drug Abuse Project for the Nat'l League of Cities, U.S. Conference of Mayors, a project to assist mayors throughout the U.S. in developing strategies to obtain community support for drug abuse prevention and treatment programs.

Gail Magen received her master's degree from the Univ. of Miami in June.

Correspondent: **Mrs. Leonard Strickman (Danielle Dana)**, 151 Commonwealth Ave., Chestnut Hill, Mass. 02167

68 MARRIED: Barbara N. Brodsky to Paul Ringel 12/16/72; **Jane M. Enright** to Lt. Richard P. Oswitt 9/2/72; **Karen E. Karl** to Ronald N. Adams 7/7/73; **Elisabeth Donaghy** to Wendell Garrett 6/2/73; **Ann Engstrom** to Charles D. Reydel 12/6/69; **Susan L. Kennedy** to Sheldon Bishor 8/26/73; **Margaret J. Oyaas** to William Naumes 7/5/70.

BORN: to Robert and **Barbara diTrollo Mannino**, Keith Lawrence 12/27/72; to Bob and **Barbara Modeski Holbrook** Scott Alexander 3/3; to John and **Sharyn Crocker Frisbie** Robert Mason 4/22; to Douglas and **Fredricka Chapman McGlashan** Tyler Robert 6/14; to William and **Heather Marcy Cooper** Kendra Julie 7/10/72; to William and **Marguerite AuWerter Shepard** William III (Trip) 5/12; to Neil and **Sheila Herman Sheer** Lara Beth 4/15; to Jack and **Patricia Bethel Egan** Catherine Collins 12/13/72; to Ricky and **Kathryn Hamilton Harnden** Christopher Walton 6/7; to Bill and **Margaret Oyaas Naumes** Joanna Kathryn 10/25/72; to James and **Jean Kehoe MacDonald** Jason Scott 6/25; to Charlie and **Susan Cryst Scholhamer Jr.** Kristin 8/20/72; to Bob and **Gretchen Ferguson Garcia** Michael Anthony 5/24.

MASS. Susan Kennedy Bishor's husband Sheldon begins graduate study in biology at Harvard while Susan finishes her master's in music at Boston Univ. in Dec.

Chuck and **Ann Engstrom Reydel** this summer

saw many '68 classmates including Bill and Susan Morgan Baker who were visiting from L.A., Bill and Marguerite (Midge) AuWerter Shephard and son Trip. They vacationed with Joe and Lynda Mauriello Franklin and Jennifer in Chatham, Mass.

Ann Gelpke Appleton was promoted to education coordinator for the Planned Parenthood League of Mass., now being responsible for the agency's sex education programs and as a side-light teaching a human sexuality course at an alternative high school.

Sheila Herman Sheer is busy with her two daughters and new home. Her husband Neil is a design engineer for Hazeltine Corp. in Avon and a part-time candidate in a Ph.D. program at Northeastern.

Patricia Bethel Egan swapped job of cost analyst for that of mother while her husband Jack teaches a law course in addition to his family's law practice.

CONN. Marguerite (Midge) AuWerter Shephard divides her time between Trip and a data-processing company in Norwalk.

Helen Benedict is still hard at work on her Ph.D. at Yale.

CALIF. Dorcas Hardy moved to Sacramento to become assistant to the Sec. of Health & Welfare. She acts as liaison between this new dept. with 20,000 employees and the Sec. of the agency. She spent July exploring the Pacific Coast with Nancy Krook and Barbara Hatch.

Susan Cryst Scholhamer's husband is doing his residency in internal medicine. They plan to return to New England in a year and a half.

Fredricka (Ricki) Chapman McGlashan's husband Doug is a second year law student at Stanford while Ricki is busy with their two sons. **ILL. Cynthia Stork Gerber** is assoc. director of admissions at Lake Forest College. Cyn was assistant to the Dean of Admissions at Pomona College in Claremont since graduation.

Jane Enright Oswitt works as reference librarian at Ohio State Univ. library in Mansfield while Dick studies for his M.S. in electrical engineering courtesy of the U.S. Coast Guard. Jane received her M.A. in library science at Michigan and during summer '72 was in Rome on a Fulbright-Hays grant to attend an 8-week seminar in classical studies at the American Academy.

Kathryn Bard Lippman, finishing her M.A. in Ancient Near Eastern studies with a specialty in Egyptology, is beginning her second year of hieroglyphics. Kathy wrote the historical text for an educational exhibition, "Art of Egypt's Sun King, Akhenaten", which was at the Brooklyn Museum in Oct. David is in his 2nd year of residency in psychiatry at Univ. of Michigan hospital.

Heather Marcy Cooper, daughter Kendra and son Matt enjoy their spacious home in Glenview, complete with back yard. Bill is production manager in a point-of-purchase advertising business.

PENNA. Andrea Bernstein Settler completed her term as a graduate assistant in the Dance Dept. of Temple Univ. and teaches dance in a new middle school as part of a performing arts carousel program which includes drama, voice and instrumental music.

Margaret Oyaas Naumes, an assistant professor of economics at Drexel Univ. in Phila., expects to receive her Ph.D. in economics from Stanford in Jan. '74.

N.J. Sharyn Crocker Frisbie tried to make our reunion but her son arrived 3 weeks early. She had her own private reunion with Steve and Jane Ayers Bruce '69 and son Ransom; Barbara Reynolds '70 who is entering medical school in St. Louis; and Margafet Schmidt Fox '69. Sharyn taught at a private school for children with minimal brain dysfunction. John is brand manager for Warner-Lambert.

ALASKA Keith and Ann Fertig Tiemann spent their second summer working in Mt. McKinley Nat'l Park as tour guides on bus tours, enjoying

the scenery and wildlife.

OKLA. Susan Finney Ford is busy with her sons, Carey and Jimmy; painting; local politics (Dem. precinct chairman); and working towards a degree at Oklahoma Center for Continuing Education. Rick is in his 2nd year of law school at the Univ. of Okla. after serving a hitch in the Air Force.

VA. Elisabeth Donaghy Garrett is director-curator of the DAR Museum in Washington while Wendell is editor of Antique Magazine in NYC. They plan to keep their two apartments and turnpike existence until Jan. when Betsy will move to NYC and Lois Olcott '71 will replace her as director-curator.

KY. Josephine (Peppy) Martin is director of public relations for the Louisville orchestra. She has begun law school at the Univ. of Louisville.

N.H. Karen Karl Adams met Ron while teaching a self-designed anthropology course at Greenwich (Conn.) High. They were married in a garden ceremony this July with Mary Jo Kirschman as maid of honor. They are now remodeling a farmhouse and barn in Ossipee where Ron started his small construction company.

PHI BETA KAPPA SCHOLARSHIP AWARD

Each year the Connecticut College chapter of Phi Beta Kappa awards a scholarship to an alumnus or senior who is planning to do graduate study. Although the size of the scholarship may vary from year to year, in the past it has amounted to \$500. Paula Rubino '73, a chemistry major, won the award last year and now is studying biochemistry at Purdue University. Any alumnus interested in applying may obtain forms from Mr. Wayne Swanson, Box 1575, Connecticut College. Completed applications may be returned no later than March 15. Applicants need not be members of Phi Beta Kappa.

ABROAD. Sharon Mairson is headed for a 2-year assignment as hospital field director for the Red Cross in Wurzburg, Germany. Before she left she saw Bill and Anne Corpening Wentz in their new home in Alexandria, Va. and Karen Young Hodge who spent last summer at Wesleyan working on a master's.

Barbara Modeski Holbrook in Scotland enjoys the travelling she and Bob did for 2 years (Athens, Paris, Norway and most of Britain) but prefers the American way of life with its central heating, hot water, efficient kitchens. "Europe is a fantastic place to visit but a hard place to live." Before their permanent return in Mar. '74 they will drive through central Europe for a month and visit Morocco and Rome.

MICH. Tracey Sprackling Reed received her master's of arts from Indiana Univ. of Penn. in spring '73.

N.Y. Jean Kehoe MacDonald, James and son Jason, after three years of teaching in N.J., are living in rural upper N.Y. (Poestenkill). James, a Lt. in the U.S. Coast Guard, studies for his master's at Rensselaer Polytechnic Inst. They met Betty Barton Brandes and Rich who spent the summer living aboard their Chris Craft, "Lively Lady". Rich is working on his master's at RPI (as Lt. j.g. in USCG) while Betty studies for her master's in philosophy at Trinity and works in the registrar's office.

Anne Palmer Strother finished her master's in May and teaches remedial reading in NYC.

Diane (Chickie) Littlefield Berry and Rich have two children, Damon 3 and Megan 7 mos. Rich received his MBA from Wharton and works for the First Nat'l City Bank. They are in NYC until Jan., then off to the Philippines (Manila)

and Asia for 2 years.

Charlotte Meyer returned to NYC after spending a year appearing in Boston's Godspell. Carla worked with Patricia Dale '66 and saw many C.C.ers including Robley Evans. She is back pounding the pavement and "getting my act together enough to get working with the Manhattan Women's Political Caucus".

I. Stephanie Hirsch Meyer enjoy collating all your bits of news. My daughter 1½ is a bag of tricks but I still find time to explore the big bad city, write and take occasional business jaunts with John (L.A., Atlanta, Orlando and Wilkes-Barre, Pa.; Florida, N.Y. and Vineland, N.J.).

New class officers for 1973-1978 are pres., **Anna Bush**; V.p. and reunion chairman, **Barbara Range**; Treas., **Pamela Berky Webb**; nominating chairman, **Margaret (Ann) Werner Johnson**; class agent, **Frances Bertelli**; class correspondent, **Stephanie Hirsch Meyer**.

Our class extends deepest sympathy to the family of **Christine Care Culotta** who died in July 1971. Our class gift was donated in her memory.

Correspondent: Mrs. John B. Meyer (Stephanie Hirsch), 141 East 33rd St., New York, N.Y. 10016

70 MARRIED: Rachel N. Sherbourne to Robert Cooney 7/7; Joanne Terry to James T. Adams 8/19/72.

BORN: to Peter and Martha Young Hasselbacher David Allen 7/29; to Bill and Celia Simon Holbrook William Franklin 8/23; to Corey and Cynthia Sokolov Rosen Jessica Lisle 5/15.

Rachel Sherbourne Cooney and Bob spent their honeymoon in Hawaii, Hong Kong and Japan. She is on the social service staff of the Eunice Shriver Center in Waltham, Mass. while her husband teaches and coaches high school football in Marlboro.

Mary Keil, recent graduate of the Wharton MBA program and employed with First Nat'l City Bank in New York in the training program for lending officers, is presently in real estate, handling commercial loans to developers.

Regina O'Brien Thomas received a juris doctor degree from B.U. where she worked with the Legal Aid Society. She has a position with the Philadelphia law firm of Ballard, Spahr, Andrews & Ingersoll.

Laurie Schaffer Disick received her M.A. in French from Hunter College in June. She taught French part-time at the Scarsdale Alternative School, an experimental and innovative annex of the high school for juniors and seniors, and did substitute teaching as well. Her husband is a dentist.

Deborah McKay is completing two books, a novel and one on aesthetics, and working on her Ph.D. in English under a university fellowship at NYU.

Ellen Ross Ebersole continues research in endocrinology at the Nat'l Institute of Health. Her husband John is doing research in neurology there and fulfilling his military requirements.

Barbara Hermann works in Norwich as coordinator of the Eastern Conn. Environmental Review Team.

Joan Schwartz McCallie completed her first year of teaching at Milford High School. She spent the summer vacationing in Denver, Colo., where husband Wyatt worked for a law firm. He has completed his 2nd year at Yale Law School.

Melissa (Missy) Ryan Groenke is a cash analyst at American Hospital Supply. She and Tad recently bought a house in Lake Bluff, Ill.

Martha Young Hasselbacher worked as a jr. executive at Gimbels in New York until her son was born. Her husband Peter is in his 1st year medical residency at Columbia Presbyterian. Martha saw Linda Wilkens Carbone who recently finished her master's in library science at the Univ. of Chicago.

Cynthia Sokolov Rosen moved to Ripon, Wisc. where her husband teaches at Ripon College. She enjoys her daughter and courses in modern dance and acting.

Sally White Walker works for the Senate Subcommittee on Air and Water Pollution. Husband Wirt is a stockbroker with Loeb, Rhoades & Co. Both love D.C.

Lucy L. Thompson graduated from Georgetown Law School and works at the Office for Civil Rights, Dept. of HEW, in D.C. She is currently doing a review of equal education services to minority children in the NYC schools and developing policies for equal delivery of health services to Spanish speaking clients.

Katherine (Kathie) Thompson teaches 2nd grade in Natick, a suburb of Boston, and loves it. She used her long summer vacations for travelling in Europe, working toward her master's, and learning how to sail.

Amy Ward received an MSW from Columbia Univ. School of Social Work and is a psychiatric social worker at St. Luke's in NYC.

Judith (Judy) Smith Stewart received her M.Ed. at Univ. of Va. and has taught 1st grade for two years. Her husband Potter graduates next June from Univ. of Va. Law School, after which they plan to move to New England or Chicago. Judy saw **Alice Handy Gerow** and husband Bill after they returned from a trip to Russia and China.

Joanne Terry Adams is assistant director of the North Shore Retired Senior Volunteer Program. She recruits senior citizens for volunteer work in a program serving 10 cities and towns. Joanne's husband James teaches English at Gov. Dummer Academy, Byfield, Mass.

Myrna Chandler Goldstein, teaching sociology at the Gallup branch of the Univ. of N.M., finds a mixture of Anglo, Spanish, Italian and Indian children truly a challenge. Her husband is fulfilling his military commitment as a Public Health Service physician, the only doctor in a poverty community.

Correspondent: Mrs. J.I. Morgan III (Nancy Pierce), 202 West Church St., Farmville, N.C. 27828

71 MARRIED: Lynn Atkinson to Eric Hans Buegers 5/26; **Lucia Del Favero** to Carlos Lukac 6/17.

BORN: to Bob and **Susan Chadwick Pokress** Matthew Chadwick 7/16.

Lynn Atkinson Buegers is an editorial assistant in the Public Information Office at Wesleyan Univ.; her husband teaches English in Durham, Conn.

Judith Dern has been extremely busy teaching weaving classes at several schools in N.H. and Me. She is in the process of setting up her own studio and has plenty of weaving orders to keep her busy this winter.

Joyce Canfield Hemingson is a senior programmer at Traveller's Ins. in Hartford. Her husband Dick teaches English at Watkinson School. Their summer highlight was a camping trip to Nova Scotia.

Lucia Del Favero Lukac lives in the Peruvian Andes, "home of the llama."

Jean Macchiaroli, in addition to her busy schedule as M.A. candidate and teacher at Michigan State, took an intensive German reading course this summer. Jean expects to receive her M.A. in history of art this year and to continue study for a Ph.D.

Ann Huckle Mallek works in research in the zoology dept. at the Univ. of Mass. She and husband Leo recently moved to Amherst, Mass., where he is busy in dentistry.

Correspondent: Mrs. Arthur H. Napier III (Terry Swayne), The Ethel Walker School, Simsbury, Conn. 06070

WHAT ARE CLASSROOMS COMING TO?

Continued from page 13

first day and continuing throughout the term, it is the students' job to create a classroom wherein they themselves can enjoy learning and one that will serve as a model for an elementary classroom in which they would like to teach.

Boxes filled with learning materials are brought from a storeroom upstairs. From sawhorses are fashioned work tables which a teacher could easily build. Bulletin boards, folding flannel boards, portable chalkboards, pieces of carpet and an assortment of audio-visual equipment, including a videotape system are brought into the classroom. Students unpack from the boxes such materials as math and word games, geo-d-stix, tangram puzzles, a microscope, assorted batteries, bells and bulbs, a rock collection, aquarium equipment, books for children and teachers, school art supplies and assorted junk for inventions and collage. The young men and women also discover a box of sand for sandpainting or science experiments and a box of sawdust for puppet heads or sculpture. They reassemble a huge totem pole made from cardboard boxes by the kindergarten class of one of our student teachers.

Each semester sees a new classroom organization, personal to its own group. Although classes tend to think in terms of learning centers for each subject area, one young man last semester protested, "Yes, but learning isn't that way, with math separated from science and social studies separated from art." Because of his objection, his group tried to effect an integration of material with boundaries between subject areas less arbitrary.

Students are allowed periods of time during the three hours of class to explore and to try out available materials. Some students spend this time learning to operate audio-visual equipment, including a videotape camera; others work with papier-mache or linoleum block prints, or they work at setting up an aquarium or a terrarium. It is assumed that each student's background is different, and his experience with particular materials or equipment may be either limited or extensive. Whatever one student may do for his own benefit helps another student to learn. Sharing and cooperation are a way of life, and everyone is encouraged to try something new with no penalty attached to making mistakes or messes.

During their student teaching period the workshop classroom may be used by students to prepare lessons or materials, to borrow teaching aids or to experiment further with audio-visual equipment. The professor of the course is also responsible for observing and evaluating the student teaching experience so that continuity is maintained and classroom learning can be evaluated in a real teaching situation.

Along with reading and textbook assignments, students are asked to attempt an audio-visual project of their own, which might be used in teaching children. They may produce an original film, a filmstrip, a set of slides, an audiotape or a videotape. In addition, a card file is assembled by each student for future use in teaching. The cards contain ideas and plans for imaginative teaching in all areas of the school curriculum, as well as creative problem solving and synectics exercises which are not currently in the elementary school curriculum. Students are encouraged to share ideas, to exchange cards and to use a variety of outside sources, including observation in the public schools.

It is expected that, as a result of the *Creativity and Learning* course, students will produce better and more

creative ideas for their own teaching and will demonstrate ability to share children's learning in every subject area with enthusiasm and interest. They undoubtedly will show developing skills as classroom leaders and capabilities of creating a classroom in which children can enjoy learning and in which divergent as well as convergent responses will be valued. These are, we believe, the skills and attributes of a good teacher of the present and also of the future.

LOOKING BACK... LOOKING NOW...

Continued from page 14

what reality is, or at least use the term guiltlessly. Reality is that I have to be in a certain place every weekday morning at nine, reality is that I have a deadline to meet, and reality is the fact that my college days are gone forever.

Since leaving school, I have also been struck by the notion of real decisions. By "real decisions," I mean decisions which will immediately affect my situation. School imposed a structure on life which protected me from ever having to confront a certain type of first-hand decision-making. School imposes a system which has built into it constant change and continual promotion. Rewards, in the form of good grades, follow closely enough on the heels of the effort to be of continuing inspiration. But more importantly, the clearly defined pattern of promotion provided by school allowed me to escape (for a while, anyway) confronting the question of where my life was going. I accepted the fact that I would be in school for a certain amount of time and carelessly followed that program. All of this is not to say that I made no decisions but only that the decisions I did make applied mainly to my internal life. My superficial situation was well provided for.

I want to avoid here projecting a melodramatic picture of my new responsibility. Like the promotion from sophomore to junior, the move from student to working woman came easily enough; but it carried with it a new system. Faced with that life insurance policy, I saw for the first time that life is a continuum. I will be at this job until I leave, but I can't look ahead and know what day I will leave. That decision is left up to me.

There is an enigma implicit in this conversion which is generated by the notion of freedom. The old adage, "These are the best years of your life," speaks to this point. In college I owned my time. I chose which courses to take and when to take them. I worked when I wanted to and played when I wanted to, all of which was carried out in the insulating framework of the school year. My daily freedom was greater, but my broader fate was rigidly determined. I accepted the daily freedom and ignored my lack of free will in the larger sense.

Now I find myself with more freedom of choice, but that freedom is limited by the responsibilities I never before had to face. My first thought on signing that life insurance policy was to walk out of the office and never come back. While I was free to make that choice, and still am, that freedom is limited by the "reality" that I have no alternative place to go. It's not exactly like dropping a course. No one will stop me from leaving, but no one will tell me what to do afterward. Essentially, I am free to do exactly as I please with my life, but that enormous freedom is illusive. It is subject to stringent guidelines set by society at large.

Enough of the more philosophical differences between students and the employed. There are more concrete differences, and they lie somewhere between the realms of highly exhilarating and outright frightening.

In school, especially in a small campus college, there is a reigning homogeneity found nowhere else in society. Differences in individuals' backgrounds are so obscured as to become almost meaningless. When I was on campus, most of my friends were there with me. We were all exposed to the same curriculum and granted the same options. We were surrounded almost solely by people of our own age and intelligence and in a daily in-residence situation our means were identical. Since everyone had so much in common, virtually no one was a stranger. It was not exactly one big happy family, but I was likely to be at least familiar with a good portion of people in any given crowd.

Since leaving school I have been profoundly affected by the increased pace of my life. It's not so easy to see friends, and time has to be carefully apportioned so that I can fit into a day everything I would like to. Suddenly I find myself relying on a calendar and little slips of paper as reminders of what I should be doing. Only a short while ago, if I said "I have to work," it meant reading a few books. I now consider time to read a few books a luxury. I have luncheon engagements and dinner dates, all of which is new to me; but if you have to eat and want to see people, it makes sense to do both at once. Saves time.

I now have less time but a new life and a new perspective. I also have a new knowledge. I know that this perspective, like everything else in life, is only temporary, for the future (and the past) is dependent upon my current present. In its turn, this present, too, will become my past, and the future will move in to take its place. While I accept the fact that the future I now envision will probably not be the one to come, yet again I plan and again I wonder. But if there's one thing I have learned about living, it's that even if you don't know, you always find out.

LOOKING AHEAD

Continued from page 15

separated entities were joined when knowledge of current college affairs was exchanged with experience in the career world.

Also last spring executive board members and an alumna trustee spoke to the senior class at an informal gathering. By meeting in this way with leaders of the association and asking questions, the students learned how we could aid them in various ways. The board, in turn, found this to be a more effective way of reaching seniors than the traditional welcome during the hectic excitement of commencement weekend, for the relaxed atmosphere promoted a more receptive audience. We believe that, by communicating with undergraduates in these ways, we gain more active, aware and interested new members who will, in exchange, find rewards for themselves through the benefits our association can offer them.

The New Student-Alumni Committee

The major proposal developed by the executive board, however, is the Student-Alumni Committee whose creation was long overdue and whose benefits are obvious as a means of uniting students and alumni. In addition to its other assets, this committee also offers the opportunity to discover "that the other isn't so bad." Furthermore, undergraduates will profit from knowing alumni academically, socially and career-wise, while alumni will gain insight into the students' world and learn new ways to help the college. The committee answers a basic need, but it will take more than the idealism of a few

board members to assimilate the two groups: the committee needs the cooperation of every graduate.

At the first meeting of this new committee in September, the discussion centered around the structure that the executive board had previously outlined. For the first year the committee will consist of six appointed alumni and six appointed students, but in subsequent years certain participants will be elected. (The president and the executive director of the alumni association are to be *ex officio* members.) The two alumni representatives serving on the executive board of the association will sit on the committee and will serve also as rotating chairmen; and two alumni, non-board members will be appointed. Six student members are to be selected from different classes and will represent a range of college activities.

The members also discussed the committee's purpose. Initially it will examine existing relations between students and alumni with strong emphasis on the role of young alumni. And by promoting the valid theory of Connecticut as a life-long alliance—rather than a limited two, three or four-year association, the committee plans to increase students' awareness of the alumni association and its goals. To implement this objective, the committee will develop projects such as the Career Internship Program, a senior-young alumni day, an alumni-speaker series and an expansion of career workshops.

Members of the Student-Alumni Committee have strong aspirations for the first year. Tackling a weak link in the college community, they are determined to unite the two groups in both theory and practice. For this purpose they will need the support of all alumni and students, even after they discover "that the other isn't so bad."

RECOMMENDED READING

Continued from page 18

he criticizes traditional Utopians (and B.F. Skinner in *Walden Two*) for envisioning simple, static societies based on a pre-industrial way of life. The new Utopia, Toffler advises, must anticipate super-industrialism and work with it. One mode of life—be it materialistic, hedonistic, or whatever—does not have to dominate. The economist, the sociologist, the anthropologist of today can subject evolution to "conscious planned human guidance." That, he says, is the way of salvation.⁵ Perhaps.

⁵*Ibid.*, pp. 408-29.

Books

The policy of our magazine is to review all alumni and faculty books at one time, in the summer. An exception is being made, however, in the case of the following two books: the first, because so many communities are in the midst of planning a publication commemorating the 1976 Bicentenary, and we can think of no better guide for such a purpose than this volume; the second book is being reviewed at this time because of its seasonal nature.

Portland. Martin Dibner, editor. The Casco Printing Company, 1973. Available from Greater Portland Landmarks, Station A, Box 4197, Portland, Maine 04101. Paperback, \$6.95; hard cover, \$15.00. As project director, Jane Smith Moody '49 is to be commended for having guided the three-year long enterprise of the Greater Portland Landmarks, Inc., which resulted in the publication of *Portland*. Through extraordinarily fine photographs and exceptionally well-written text, this

beautiful book summarizes the history of Portland and, at the same time, emphasizes the need for intelligent preservation unless what little is left of our early buildings is to disappear completely. A thought-provoking section, "Lost Buildings," reminds us of how much of our finest architecture has been lost through demolition or else irretrievably altered in the name of commercial progress. One need not be an antiquarian or historian to enjoy and be stimulated by this outstanding book.

I Love to Ski. Elizabeth McKey Hulbert '47. Dorrance & Company, 1973. The author of *Pardon Us, We Live Here* and *Out and In* has written a charming, inexpensive book about skiing. Complemented by beautifully drawn pictures, this easy-to-read story will delight both skiing and non-skiing children as well as juvenile and adult skiers.

MAILBOX

Continued from page 23

where in the city always manage to get to the Palm Lounge at some time during their stay because they know that they are sure to see familiar faces there.

The development of the idea of *The Biltmore College Relations Department* is interesting. About 1924, Mrs. John Hammond, erstwhile dramatic teacher and counsellor for a girls' camp, joined a friend in inviting a limited number of girls to spend the summer in a garden-surrounded 14th century manse in England for vacationing students. The venture was called "The House-party" and proved so successful that some of the girls made repeated requests for a place in New York where they could come and to some extent be on their own. . . .

In line with her services to schools and colleges, Mrs. Hammond makes her living room available for interviews between students and college authorities, and her frequent consultations with college deans enable *The Biltmore* management to keep in close touch with student requirements. In short, although the entire Biltmore staff is mindful of the safety and happiness of student guests, it is not difficult to understand why Mrs. Hammond has earned the title, "Counsellor-at-the-Crossways."

Shortchanged

When can we expect Part II of the Fall 1973 issue on the Thirties? Surely there must be more. To be enticed by Cynthia Enloe's piece (who, with her parenthetical asides, lets us know how up-to-date she is), to bestow upon myself a lamentable B.P.A., to take heart in Professor Desiderato's article on memory—though it was much too brief and thus relegated to my "short-term storage," and then—Class Notes. . . .

To produce such a fine magazine requires imagination, devotion and an immense amount of time. You have given us that in the past. In this recent issue the idea was there, the layout was outstanding as usual, but we were shortchanged on content.

What happened, Mrs. Johnson?

Gretchen Meyers
A Berkeley graduate

Ed. Thank you, Ms. Meyers of Berkeley, for your praise. As to what happened—we knew when we clipped "Murphy's Other Laws" from a recent *American Alumni Council* publication that it would come in handy some day! Here they are: "If you try to please everybody, somebody won't like it"; "Nothing is ever as simple as it seems"; "If anything can go wrong, it will"; "Everything always costs more money than you have"; "If you explain something so clearly that no one can misunderstand, someone will"; and—our own addition—"Don't count on subscribers reading everything in the magazine. They won't."

Please try the other four features relating to the Thirties: "A View from View Books," "Whatever Happened to Tea-Dancing at the Biltmore?" "Catastrophe Hits the Campus," and "The Zebola Women" (written by a 1933 foreign student). And do write again.
